MINUTES

CALL TO ORDER

The meeting was called to order at 1:34 PM by Chair Lisa Wichser.

ROLL CALL

TAC Members in Attendance:

Lisa Wichser, Chair
Kim DeLaney, Vice Chair
Robert Daniels
Althea Jefferson
Mark Cocco
Samantha Lovelady
Milton Leggett
Ken DeAngeles

TAC Members Excused:

Stuart Trent
David Dyess
Ashman Beecher
Sam Carver

TAC Members Not in Attendance:

Staff in Attendance:

Beth Beltran, MPO Administrator
Ricardo Vazquez, Senior Planner
Joy Puerta, Planner
Lucine Martens, Planner
Alor Cadorna, Administrative Assistant

Others in Attendance:

Christine Fasiska, FDOT-D4
Jacqui May, City of Stuart
Pinal Gandhi-Savdas, City of Stuart
Joe Capra, Captec Engineering Inc.
Victoria Williams, FDOT-FTE

Chris Goetzfried, Martin County
A quorum was present.

3. APPROVE AGENDA

A motion to approve the agenda was made by Samantha Lovelady and seconded by Ken DeAngeles. The motion passed unanimously.

4. APPROVE MINUTES

- TAC Meeting – September 7, 2022

A motion to approve the Meeting Minutes of September 7, 2022 was made by Robert Daniels and seconded by Samantha Lovelady. The motion passed unanimously.

5. COMMENTS FROM THE PUBLIC - None

6. AGENDA ITEMS

A. FY23-FY27 TRANSPORTATION IMPROVEMENT PROGRAM (TIP) - AMENDMENT #2

Beth Beltran gave a brief overview on the FY23-FY27 Transportation Improvement Program (TIP) Amendment #2. She stated that FDOT requests an amendment because a new project has been added to the Work Program (FM#452227-1). This project is part of a Statewide Initiative to install rumble strips on the shoulders of high-speed state roadways (50 mph and above). She requested approval and was available to answer questions.

A motion to approve the FY23-FY27 Transportation Improvement Program (TIP) Amendment #2 was made by Samantha Lovelady and seconded by Ken DeAngeles. The motion passed unanimously.

B. ELECTION OF OFFICERS

A motion to nominate Lisa Wichser as Chair by Kim DeLaney and seconded by Ken DeAngeles, motion passed unanimously.

A motion to nominate Kim DeLaney as Vice Chair was made by Samantha Lovelady and seconded by Milton Leggett, motion passed unanimously

C. ADOPTION OF BRIDGE, PAVEMENT, AND SYSTEM PERFORMANCE TARGETS

Beth Beltran introduced Ricardo Vazquez who gave an overview of the Adoption of Bridge, Pavement, and System Performance Targets. He mentioned that the United States Department of Transportation (USDOT) requires that the MPO establish performance measure targets for the national Performance Measures.

Lisa Wichser asked how we did in the last four years. Ricardo Vazquez mentioned we probably have been worse regarding safety performance, but does not recall the bridge, pavement, and system performance in Martin County.

Kim DeLaney suggested that it would be interesting as a committee to have a chance to see what our targets are versus how we are performing so we can have that conversation.

A motion to table this agenda item till April, and bring information regarding how Martin County is performing against the proposed targets, and provide information regarding why and how FDOT has set these Performance Measure targets was made by Robert Daniels and seconded by Kim DeLaney. The motion passed unanimously.

D. COMMUNITY CHARACTERISTICS REPORT SCOPE OF SERVICES

Ricardo Vazquez gave a brief overview of the Community Characteristics Report Scope of Services. He mentioned that the USDOT requires that MPOs collect and analyze socio-economic data to better incorporate the needs of diverse groups into the transportation decision-making process. He requested approval and was available to answer questions.

A motion to approve the Community Characteristics Report Scope of Services was made by Kim DeLaney and seconded by Samantha Lovelady, motion passed unanimously.

E. FY23 TRANSPORTATION ALTERNATIVE PROGRAM (TAP) APPLICATIONS

Beth Beltran introduced the item to the Committee. She explained that the MPO received one application from the City of Stuart and introduced Pinal Gandhi-Savdas, CRA Director of the City of Stuart and Joe Capra, Project Engineer. They presented the South Dixie Highway Improvements for the 2023 TAP application cycle. The federal funds being requested are \$481,673.38 with local fund contributions of \$508,714.66.

Kim DeLaney complimented the City of Stuart for taking such a progressive approach on adding mid-block crossings. She mentioned that the one-way turn down Colorado Avenue is a big improvement in that area, and it will make it a lot safer for the community.

A motion to approve the FY23 Transportation Alternative Program (TAP) Application was made by Samantha Lovelady and seconded by Ken DeAngeles, motion passed unanimously.

F. DRAFT FY25 – FY29 LIST OF PROJECTS PRIORITIES (LOPP)

Beth Beltran introduced the item and gave the Committee a status report on the Martin MPO DRAFT FY25-FY29 List of Project Priorities. She mentioned that FDOT requires that the MPO submit the Draft LOPP by March 1st of each year. The final LOPP will be

presented at the June advisory committee meetings and MPO Board meeting before adoption.

Robert Daniels mentioned the North Sewall's Point Road flooding and how this is going to be a catastrophe waiting to happen especially since this is an evacuation route. Beth Beltran stated that when we move forward to the next grant cycle, the County will let the MPO know the status of the Hazard Mitigation Grant Program (HMGP) grant. It is on this list now to be able to move forward to the District, if needed, to be considered for funding.

A motion to approve the Draft FY25 – FY29 List of Projects Priorities (LOPP) was made by Samantha Lovelady and seconded by Ken DeAngeles, motion passed unanimously.

G. DEVELOPMENT REVIEW INTERACTIVE MAP UPDATE

Ricardo Vazquez introduced this as an information item and gave a visual presentation of the interactive map. The Martin MPO Policy Board requested that MPO staff work with local government staff and review approved and proposed land developments. A map was developed showing County and municipal land developments.

Lisa Wichser and Kim DeLaney suggested adding the two new project priorities on the map with a red dash line, and to label the urbanized area boundary layer, so that people understand what they are looking at when it is selected.

H. PUBLIC INVOLVEMENT ANNUAL REPORT

Beth Beltran introduced the item to the Committee, and Ricardo Vazquez, Senior Planner, presented the Public Involvement Annual Report. He introduced the various objectives and strategies that were achieved in Calendar Year 2022.

A motion to approve the Public Involvement Annual Report was made by Robert Daniels and seconded by Milton Leggett, motion passed unanimously.

7. COMMENTS FROM COMMITTEE MEMBERS

Kim DeLaney mentioned the funding pot for Shared Use Nonmotorized (SUN) Trail has historically been \$25 million a year. The incoming Senate President is highly prioritizing the trails so the expectation of the funding may be quadruple this year and next year for SUN Trail funding in the state.

8. NOTES

9. NEXT MEETING

Joint CAC, TAC & BPAC Meeting – April 3, 2023 @ 1:30 PM

ADJOURNMENT: 2:42 P.M.

Prepared by:

Alor Cadorna, Administrative Assistant

Date

Approved by:

Lisa Wichser, TAC Chair

Date

Minutes Approved on May 1, 2023

The Martin MPO solicits public participation without regard to race, color, national origin, age, sex, religion, disability or family status. Persons who require special accommodations under the American with Disabilities Act or persons who require language translation services (free of charge) should contact Ricardo Vazquez, Senior Planner (Title VI/Non-discrimination Contact) at (772) 223-7983 or rvazquez@martin.fl.us in advance of the meeting. Hearing impaired individuals are requested to telephone the Florida Relay System at #711.

**TECHNICAL ADVISORY COMMITTEE (TAC) MEETING
AGENDA ITEM SUMMARY**

MEETING DATE: May 1, 2023	DUE DATE: April 24, 2023	UPWP#: 5
WORDING: DRAFT FY24 – FY28 TRANSPORTATION IMPROVEMENT PROGRAM (TIP)		
REQUESTED BY: FDOT	PREPARED BY: Ricardo Vazquez / Beth Beltran	DOCUMENT(S) REQUIRING ACTION: DRAFT FY24 - FY28 TIP

BACKGROUND

The Transportation Improvement Program (TIP) is the document that contains all Federal, State and locally funded, and regionally significant transportation projects to be funded in Martin County during the next five fiscal years. This document is updated annually and is based on the FDOT District 4 Tentative Work Program that was approved by the MPO Board on December 12, 2022.

The Final FY24 – FY28 TIP is scheduled to be adopted by the MPO Board at the June 19, 2023 meeting. To provide 45 days for public review and comment, beginning May 5th, the Draft TIP will be available for public review, both on the MPO website and in hard copy format at local libraries and in the County Administration Building lobby.

ISSUES

At the May Advisory Committee Meetings, MPO staff will present the DRAFT FY24 – FY28 TIP. The DRAFT TIP is missing the Capital Improvement Plans (CIPs) from the Town of Jupiter Island and the City of Stuart, as well as the Transportation Disadvantaged Funding table on Page 76. Those items will be added to the Final Draft TIP once the Martin MPO receives the CIPs and allocations.

In addition, FM# 4447051 (NE DIXIE HWY, NW ALICE ST AND SE PETTWAY ST @ FEC) will be updated to remove Pettway Street and NE Dixie Highway, as pedestrian improvements at those intersections have already been completed.

The final draft TIP will return to the Advisory Committees in June 2023.

RECOMMENDED ACTION

- a) Motion to approve the DRAFT FY24 – FY28 TIP as presented.
- b) Provide comments on the DRAFT FY24 – FY28 TIP.

FISCAL IMPACT

The Transportation Improvement Program is based upon the Draft Tentative Work

AGENDA ITEM 6A

Program approved at the December 12, 2022, Policy Board Meeting. It is the vehicle through which State and Federal transportation funds are authorized to be released for Martin County transportation projects.

ACKNOWLEDGEMENTS

The preparation of this report has been funded in part through grants from the Federal Highway Administration and Federal Transit Administration, U. S. Department of Transportation (USDOT), under the Metropolitan Planning Program of the U.S. Code (Title 23, Section 104(f)). The Transportation Improvement Program (TIP) contains all transportation-related projects to be funded by Title 23 and Title 49 funds. The contents of this report do not necessarily reflect the official views or policy of the USDOT.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Persons with questions or concerns about nondiscrimination, or who require special accommodations under the American with Disabilities Act or language translation services (free of charge) should contact Ricardo Vazquez, Senior Planner (Title VI/Non- discrimination Contact) at (772) 223-7983 or rvazquez@martin.fl.us. Hearing impaired individuals are requested to telephone the Florida Relay System at #711.

CERTIFICATION

FHWA/ FTA CERTIFICATION

Federal Law requires the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) to jointly certify the transportation planning processes of Transportation Management Areas (TMAs) at least every four years (a TMA is an urbanized area, as defined by the US Census, with a population over 200,000).¹ The most recent quadrennial certification site visit was conducted in March 2021, and the next anticipated quadrennial certification will occur before September 2025.

Pursuant to 23 CFR 450.328(a), the FHWA/FTA must jointly find that each metropolitan TIP is based on a “3-C” (continuing, comprehensive, and cooperative) planning process by the MPO, State Department of Transportation, and transit service provider(s). The Martin MPO participated in a State Certification process that is conducted annually by FDOT District Four. The results from the most recent State Certification is available on the Martin MPO website (www.martinmpo.com) No recommendations or corrective actions were issued by FDOT as part of the most recent State Certification.

¹ Federal Highway Administration Florida Division & Federal Transit Administration Region 4. Certification Report: Port St. Lucie Transportation Management Area – St. Lucie Transportation Planning Organization & Martin Metropolitan Planning Organization. March 2009.

Pursuant to the requirements of 23 U.S.C. 134(k)(5) and 23 CFR 450.334(a), the Department and the MPO have performed a review of the certification status of the metropolitan transportation planning process for the Martin MPO with respect to the requirements of:

1. 23 U.S.C. 134 and 49 U.S.C. 5303;
2. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 C.F.R. Part 21
3. 49 U.S.C. 5332 prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
4. Section 1101(b) of the FAST Act and 49 C.F.R. Part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
5. 23 C.F.R. Part 230 regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
6. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and the regulations found in 49 C.F.R. Parts 27, 37, and 38;
7. The Older Americans Act, as amended (42 U.S.C. 6101) prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
8. Section 324 of 23 U.S.C. regarding the prohibition of discrimination on the basis of gender; and
9. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 C.F.R. Part 27 regarding discrimination against individuals with disabilities.

Included in this certification package is a summary of noteworthy achievements by the MPO, attachments associated with these achievements, and (if applicable) a list of any recommendations and/or corrective actions. The contents of this Joint Certification Package have been reviewed by the MPO and accurately reflect the results of the joint certification review meeting held on 2/13/2023.

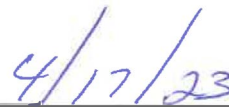

Based on a joint review and evaluation, the Florida Department of Transportation and the Martin MPO recommend that the Metropolitan Planning Process for the Martin MPO be certified.

PROJECT INDEX BY NUMBER 152

1.0 INTRODUCTION

1.1 MPO OVERVIEW

Established in 1993, the Martin MPO is governed by a Policy Board and serves the residents of Martin County. Planning tasks of the Martin MPO include regional coordination, bicycle and pedestrian planning, mobility management, demographic research, air quality planning, and public involvement processes and updates. As an agency, the Martin MPO also serves its primary function as the coordinator for multi-modal transportation project planning and funding in and through the county with various state agencies responsible for transportation and land use plans as well as adjacent MPOs. On specific regional issues, the Martin MPO partners with the St. Lucie TPO, the Indian River County MPO, and the Palm Beach TPA.

1.2 TIP PURPOSE

The purpose of this Transportation Improvement Program (TIP) is to provide a comprehensive and prioritized listing of transportation projects for FY24-FY28 that is consistent with the 2045 Long Range Transportation Plan (LRTP). It contains all transportation-related projects to be funded by Title 23 and Title 49 funds and regionally significant transportation projects planned for the upcoming five years and is updated annually with funding priority given to the highest ranked projects from the LRTP Cost Feasible Plan.

The TIP is based on funding data contained within the FDOT Tentative Work Program (also known as the Public Hearing Report), which is developed annually and made public by FDOT prior to the development of the TIP. This report is the result of FDOT working with local agencies to establish priorities for scheduling improvements to the Strategic Intermodal System (SIS), including freight and Intelligent Transportation System (ITS) strategies, Federal interstate highway system, local roadways and MPO priorities concerning transit, pedestrian and bicycle friendly environments and transportation demand management programs.

1.3 ORGANIZATION

Section 1.0 contains a brief overview of the MPO and the purpose of the TIP. It also contains a list of major projects that are considered top priorities. Section 2.0 contains specific items that were considered in the development of this TIP. These items include the Financial Plan, List of Project Priorities, the MPO's overall goals as described within the 2045 LRTP and Performance Measures to meet Federal Highway Administration (FHWA) requirements.

Section 3.0 contains a list of efforts the MPO plans to make in order to obtain public input for the development and approval of the TIP. It will also contain a brief summary of the public comments received and the MPO's response to them. The Appendices contain a list of projects by funding category, the project sheets programmed in Martin County, the Local Capital Improvement Plans and FY22 Federal Obligated Projects. The detailed project sections are based on the FDOT District Four Tentative Work Program as imported on April 19, 2022. Depending on many factors, these lists of projects may potentially change prior to July 1, 2022. Once the MPO receives a final Work Program from FDOT District Four, this section may be modified.

Because the project portion of the TIP is generated through the Interactive TIP Tool, there can be several variations of the project report. For efficiency and reduction of printed pages, the adopted version shows project detail with maps for only the Highway projects. Sections for transit, aviation, Turnpike, and Districtwide list are summarized with project details without location maps. All project details include a summary of costs and revenues by funding source. Because only funded projects and phases are listed in the FDOT District Four Work Program, the costs and revenues are assumed to be equal, demonstrating financial constraint.

1.4 FULL PROJECT COSTS

The normal project production sequence is to have a Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) phase. Some projects may not have a ROW phase, if land is not needed to complete the project. Costs on the TIP pages for projects both on and off the SIS will have historical costs and five years of the current TIP, which may or may not be the total project cost. If there is no CST phase on the TIP page, then the entry will probably not be reflective of the total project cost. For some projects, such as resurfacing, safety or operational project, there may not be a total cost provided but rather additional details on that program.

The SIS is a network of high priority transportation facilities which includes the State's largest and most significant commercial service airports, spaceport, deep water seaports, freight rail terminals, passenger rail and intercity bus terminals, rail corridors, waterways and highways.

For costs beyond the ten-year window, access to the Long Range Transportation Plan (LRTP) is provided. The LRTP reference on the TIP page provides the information necessary to locate the full project costs and/or additional details

regarding the project in the LRTP. If there is no LRTP reference in the TIP, full project costs are provided in the TIP. The link to the Martin LRTP is https://martinmpo.com/wp-content/uploads/2021/02/Final-Report_DigitalVersion04-Optimized-2.pdf

1.5 TIP AMENDMENTS AND MODIFICATIONS

Once the TIP is adopted, there are times that it must be modified or amended because the MPO does not have direct control of funding resources. This can be accomplished by amendment or administrative modification. TIP Amendments are revisions that involve a major change, including an added or deleted project, a significant change to project cost (increase of 20% and greater than \$2 million), or major change to a project scope. Amendments require a review period to gather public comments. During this review and comment period, the TIP will be brought before the MPO Advisory Committees for review, and then before the MPO Policy Board for approval. TIP Administrative modifications are revisions that include minor changes to project costs, funding sources, and project initiation dates. Administrative modifications do not require public review, but staff will present them to the Advisory Committees whenever feasible. Administrative modifications require MPO Policy Board approval. The Martin MPO coordinates all TIP Amendments and Administrative Modifications with FDOT District Four.

1.6 MAJOR PROJECT DESCRIPTIONS

The major multi-modal projects, prioritized by the Martin MPO Policy Board and included in the FDOT Tentative Work Program for federal and state funding, are described below.

- **FM# 413253-2** – I-95 from Martin/Palm Beach County Line to CR-708/Bridge Road: Add lanes and reconstruct.
Phase: PDE
- **FM# 413254-2** – SR-9/I-95 from CR-708/Bridge Road to High Meadows Ave: Add lanes and reconstruct.
Phase: PDE
- **FM# 419669-3** – Willoughby Blvd from SR-714/Monterey Road to SR-5/US-1: New two-lane road.
Phase: PDE
- **FM# 422681-5** – I-95 from High Meadows to Martin/St. Lucie County Line: Add lanes and reconstruct.
Phase: PDE

- **FM# 436870-1** – SR-714/SW Martin Highway from Citrus Blvd. to SW Martin Downs Blvd.: Add lanes and reconstruct. Phase: RW Land Acquisition (currently under construction).
- **FM# 441636-2** – SR-714/Monterey @ FEC Railroad Crossing. Phase: PDE
- **FM# 441699-1** – CR-713/High Meadow Ave from I-95 to CR-714/Martin Hwy: Add lanes and reconstruct. Phase: PDE and P.E.
- **FM# 441700-1** – Cove Road from SR-76/Kanner Highway to SR-5/US-1: Add lanes and reconstruct. Phase: PD&E and P.E.
- **FM# 446257-1** – Southbound Right Turn Lane onto Kanner Hwy, includes Triple Left Turn lanes onto US-1 Northbound. Phase: P.E.

1.7 IMPLEMENTED PROJECTS

The following major projects were implemented from the last two TIP cycles:

FM# 437992-3: CR 609 Guardrail (completed in 2021)

FM# 438347-1: Indian St. Resurfacing (A1A/Dixie Hwy to St. Lucie Blvd) (completed in 2021)

FM# 441567-1: Sidewalks from SE Florida St from SE Johnson Ave. to CR 707/Dixie Hwy. (completed in 2021)

FM# 440811-1: CR-708/SW Bridge Road from Pratt Whitney to SR-5/US-1: Resurfacing and bicycle lanes (completed in 2022)

2.0 PROGRAM CONSIDERATIONS

2.1 FINANCIAL PLAN

In accordance with Federal Legislations [23 C.F.R. 450.326(k)], the MPO must demonstrate that the TIP is financially constrained. This means that the estimated expenses (or project costs) are consistent with the anticipated revenues for each funding source. Only those projects for which a revenue source has been identified are shown in the TIP to ensure a balance between the costs and revenues.

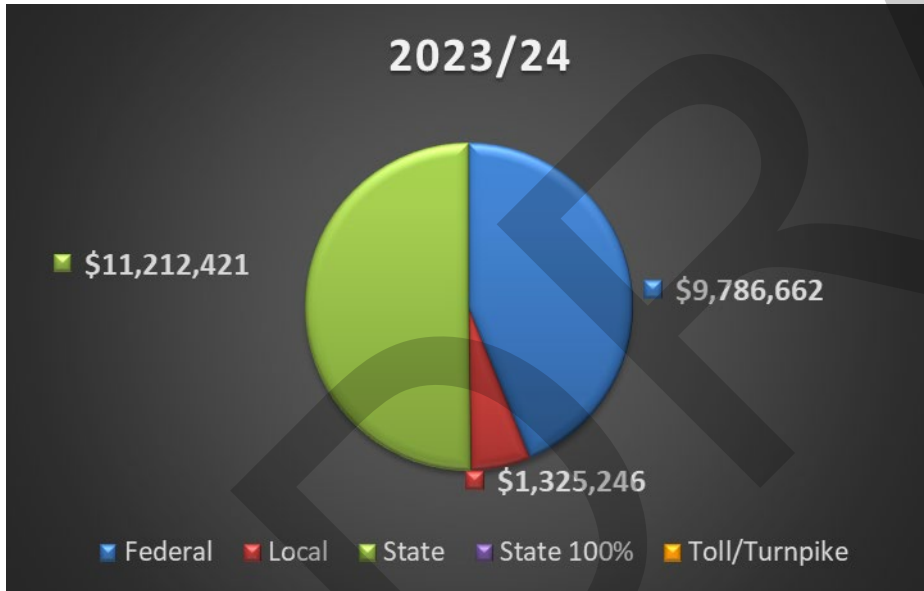

The TIP must include a financial plan that demonstrates how the approved TIP can be implemented, indicates resources from public and private sources that are reasonably expected to be made available to carry out the TIP, and recommends any additional financing strategies for needed projects and programs. However, because the MPO does not have direct control of funding resources, Administrative Modifications or Amendments may have to be made to the TIP during the fiscal year.

The Transportation Improvement Plan (TIP) is financially constrained for each year. Federally funded projects identified in the TIP can be implemented using current proposed revenue sources based on the Florida Department of Transportation (FDOT) Tentative Work Program and locally dedicated transportation revenues. All projects funded by FDOT with Federal or non-Federal dollars are included in a balanced 36-month forecast of cash and expenditures and a five-year finance plan supporting the FDOT Work Program. All local government projects (non-Federally funded) that are included in the TIP are part of member local government's capital improvement programs. The following table provides a summary of total project costs by Federal, State and local funding codes by fiscal year. Note that all project costs are shown in Year of Expenditure (YOE) dollars, meaning the costs reflect the adjusted value of the work at the time the funds will be expended on the project.

Table 1 – Allocation of Project Costs by Funding Source and Year

Funding Source	2023/24	2024/25	2025/26	2026/27	2027/28	Total
Federal	\$9,786,662	\$48,430,898	\$18,895,736	\$4,815,981	\$5,151,343	\$87,080,620
Local	\$1,325,246	\$2,232,404	\$1,053,737	\$1,930,118	\$618,270	\$7,159,775
State	\$11,212,421	\$8,928,839	\$17,122,226	\$8,512,101	\$7,579,953	\$53,355,540
State 100%		\$1,441,524		\$1,117,906	\$4,711,981	\$7,271,411
Toll/Turnpike		\$20,971,923				\$20,971,923
Total	\$22,324,329	\$82,005,588	\$37,071,699	\$16,376,106	\$18,061,547	\$175,839,269

Summary by Funding Sources and Fiscal Year

Summary by Funding Sources and Fiscal Year

2.2 PROJECT SELECTION PROCESS

In accordance with 23 CFR 450.332(c), federally funded projects are selected by the MPO in conjunction with the development of the FDOT Tentative Work Program and through the cooperation of the public transit operator who provides the MPO with estimates of available federal and state funds in order for the MPO to develop its financial plan.

In addition, the 2045 LRTP plays a major role in identifying projects for selection. Contained within the LRTP is an evaluation of existing conditions, an evaluation of projected conditions, the identification of policy and project needs, and a determination of the cost feasibility of implementing these projects.

Both the FDOT Tentative Work Program and the 2045 LRTP provide the basis for establishing project priorities consistent with the planning factors considered in their annual selection, and subsequent development of the TIP pursuant to the requirements set forth in Federal legislation.

2.3 PROJECT PRIORITY STATEMENT

As required under 339.175 (8) (b) F.S., the annual list of project priorities was developed based on criteria that included the:

- Approved 2045 Long Range Transportation Plan (LRTP);
- Strategic Intermodal System Plan (SIS);
- Results of the transportation management systems; and
- MPO's public involvement procedures.

Annually MPO staff meet with FDOT staff and local government staff to discuss project priorities. During this process, priorities are identified based on those of the previous year and the priorities listed in the Cost Feasible Plan of the current LRTP. This new list of priorities is discussed with the MPO Advisory Committees and then approved by the MPO Board. These priorities are then submitted to FDOT and used to program projects accordingly.

Surface Transportation Program (STP) Priorities

The Surface Transportation Program (STP) provides flexible funding that may be used by States and localities for projects to preserve and improve the conditions and performance on any Federal-aid highway, bridge and tunnel projects on any public road, pedestrian and bicycle infrastructure, and transit capital projects.

2.4 CHANGES TO PROJECT PRIORITIES

In accordance with 23 CFR 450.326(n)(1), MPOs are required to explain any changes in priorities from previous TIPs.

Changes from last year's TIP were made based on funding availability and construction. The Transportation Alternatives Priorities have been updated to reflect recent Transportation Alternatives Program applications, as well as previously funded projects. The Public Transit Priorities table reflects funding estimates.

The FY24 – FY28 LOPP has updated project descriptions for project #9, #10 and #11. Project #9 (Willoughby Blvd. Extension) was updated to include bike lanes and sidewalks/shared-use pathways. Project #10 (CR 713/High Meadow Ave from I-95 to CR 714/Martin Highway) now includes a shared-use pathway. Project #11 (US-1 at Joan Jefferson Way and at Ocean Blvd.) was updated to include enhanced pedestrian facilities. The FY23 – FY27 LOPP Project #14 (US-1 at NW Sunset Blvd.) was funded for construction and was removed from the current LOPP. The FY24 – FY28 LOPP Project #14 (New southbound right turn lane on US-1 at Kanner Highway) was updated to include pedestrian enhancements. Project #15 (Dixie Highway from Cove Road to Jefferson St.) was moved up from #17 in the previous LOPP. FY23 – FY27 LOPP Project #16 (North Sewall's Point Road) and project #18 (MacArthur Blvd.) were moved to #18 and #19 respectively.

The FY24 – FY28 LOPP includes three new projects, which are ranked #16, #17 and #20. Project Priority #16 is to resurface CR609/Allapattah Road and includes a signalized intersection, a southbound left turn lane and shoulder widening. Project #17 is to replace the Bascule Bridge on CR 708/Bridge Road. Project #20 is to resurface County Line Road from SE Wooden Bridge Lane to US-1.

2.5 LIST OF PROJECT PRIORITIES

The projects in the tables below have been formally reviewed by the MPO Citizens Advisory Committee, Bicycle and Pedestrian Advisory Committee, and Technical Advisory Committee, and were approved by the MPO Policy Board at its meeting on June 20, 2022.

**Table 2
FY24 – FY28 - List of Project Priorities**

Facility	Segment Limits		Project Description	2045 LRTP Page #	FY23 Ranking	FY24 Ranking
	From	To				
Cove Road	SR 76/ Kanner Hwy	US 1	Widen from 2 lanes to 4 lanes including bike lanes and shared use pathway	69	1	1
SR 710	FPL Power Plant	Martin/ Okeechobee County Line	Widen from 2 lanes to 4 lanes	76	2	2
CR 714	Realignment		Flatten curve of CR 714 before intersection at SR 710	Appendix G, pg. 1	3	3
Monterey Road	At FEC Railroad		Railroad/roadway grade separation	Appendix H, pg. 5	4	4
SR 76/Kanner Hwy	At SW South River Dr.		New southbound right turn lane at South River Dr. & traffic signal	80	5	5
US 1	At Constitution Blvd.		Traffic signal	80	6	6
Monterey Rd. & East Ocean Blvd.	Kingswood Terrace	St. Lucie Blvd.	Mid-block pedestrian crosswalks	Appendix H, pg. 11	7	7
FEC RR Crossings	NW Alice St.		Pedestrian facilities	Appendix H, pg. 11	8	8

Table 2 - Continued

Facility	Segment Limits		Project Description	2045 LRTP Page #	FY23 Ranking	FY24 Ranking
	From	To				
Willoughby Blvd. Extension	Monterey Road	US 1	New 2-lane road with bike lanes and sidewalks/shared use pathways	69	9	9
CR 713/High Meadow Avenue	I-95	CR 714/ Martin Hwy	Widen from 2 lanes to 4 lanes with shared-use pathway	69	10	10
US 1	At Joan Jefferson Way and at Ocean Blvd.		Upgrade obsolete traffic signals, including green mast arms and enhanced pedestrian facilities (coordinate with City of Stuart)	69	11	11
Baker Rd. & US 1	Intersection Improvements		Northbound right turn lane & green mast arms and pedestrian enhancements	80	12	12
US 1	NW North River Shores Blvd.		Upgrade traffic signals to green mast arms for future four way intersection	80	13	13
US 1	At SR 76/ Kanner Hwy		New southbound right turn lane onto Kanner Hwy and pedestrian enhancements	80	15	14
Dixie Hwy.	Cove Road	Jefferson St.	Resurfacing and Complete Street improvements	84	17	15
CR 609/Allapattah Road	SR 710	2,800 ft. north of Minute Maid Rd. (at the S curve)	Resurfacing/signalized intersection/southbound left turn lane/shoulder widening	74		16
CR 708/SE Bridge Road	Bascule Bridge		Bridge Replacement	123		17
N Sewall's Point Road	East Ocean Blvd.	Palmer St.	Mitigate for sea level rise impact	87	16	18
MacArthur Blvd.	Sailfish Point	1500 ft. North	Mitigate for sea level rise impact	87	18	19
County Line Road	SE Wooden Bridge Lane	US 1	Resurfacing	74		20

Construction	Transit Center Facility	\$4,102,128	\$5307/\$5339	LRTP - pg. 50
Safety/Security	1% Safety/Security	\$49,954	\$5307	LRTP - pg. 50

2.6 MPO 2045 LRTP GOALS

The 2045 Long Range Transportation Plan (LRTP) for the Martin MPO is an analysis of the current and projected conditions in the region that will impact the transportation network. It contains an evaluated list of transportation improvements that will be necessary to maintain an adequate level of mobility and to accommodate anticipated population growth. The goals contained in the LRTP guide the transportation planning process in the MPO Planning Area and help to establish project priorities for the TIP.

- **2045 LRTP Goal 1:** An efficient multimodal transportation system that supports economic growth and enhances the quality of life.
- **2045 LRTP Goal 2:** A safe multimodal transportation system that meets the needs of all the users.
- **2045 LRTP Goal 3:** Preserve natural environment and promote equity and healthy communities.
- **2045 LRTP Goal 4:** A transportation system with an ability to harness changes in the future.
- **2045 LRTP Goal 5:** A transportation system that reflects the community's needs and desires.

2.7 Performance Measures

Transportation Performance Management (TPM) is a strategic approach to connect investment and policy decisions to help achieve performance goals. Performance measures are quantitative criteria used to evaluate progress. Performance measure targets are the benchmarks against which collected data is gauged. The Moving Ahead for Progress in the 21st Century Act (MAP-21) requires State DOTs and MPOs to conduct performance-based planning by tracking performance measures and setting data-driven targets to improve those measures. Performance-based planning ensures the most efficient investment of federal transportation funds by increasing accountability, transparency, and providing for better investment decisions that focus on key outcomes related to seven national goals:

- Improving Safety;
- Maintaining Infrastructure Condition;
- Reducing Traffic Congestion;
- Improving the Efficiency of the System and Freight Movement;
- Protecting the Environment; and,
- Reducing Delays in Project Delivery.

The Fixing America's Surface Transportation (FAST) Act supplements the MAP-21 legislation by establishing timelines for State DOTs and MPOs to comply with the requirements of MAP-21. The Florida Department of Transportation (FDOT) and MPOs must coordinate when selecting PM1, PM2, and PM3 performance targets, and public transportation providers must coordinate with states and MPOs in the selection of state and MPO transit asset management and transit safety performance targets. FDOT and the MPOAC developed the TPM Consensus Planning Document to describe the processes through which FDOT, the MPOs, and the providers of public transportation in MPO planning areas will cooperatively develop and share information related to transportation performance management and target setting.

Safety

The first of FHWA's performance management rules establishes measures to assess fatalities and serious injuries on all public roads. The rule requires state DOTs and MPOs to annually establish targets and report performance and progress toward targets to FHWA for the following safety-related performance measures:

1. Number of Fatalities;
2. Rate of Fatalities per 100 million Vehicle Miles Traveled (VMT); and
3. Number of Serious Injuries;
4. Rate of Serious Injuries per 100M VMT; and
5. Number of Nonmotorized Fatalities and Serious Injuries.

Statewide Targets

Safety performance measure targets are required to be adopted on an annual basis. In August of each calendar year, FDOT reports targets to FHWA for the following calendar year. On August 31, 2022, FDOT established statewide safety performance targets for calendar year 2023. Table 5 presents FDOT's statewide targets.

Table 5 – Statewide Safety Performance Targets

Performance Measure	Calendar Year 2022 Statewide Target
Number of fatalities	0
Rate of fatalities per 100 million vehicle miles traveled (VMT)	0
Number of serious injuries	0
Rate of serious injures per 100 million vehicle miles traveled (VMT)	0
Number of non-motorized fatalities and serious injuries	0

FDOT adopted Vision Zero in 2012. This, in effect, became FDOT’s target for zero traffic fatalities and quantified the policy set by Florida’s Legislature 35 years ago (Section 334.046(2), Florida Statutes, emphasis added):

*“The mission of the Department of Transportation shall be to provide a **safe** statewide transportation system...”*

FDOT and Florida’s traffic safety partners are committed to eliminating fatalities and serious injuries. As stated in the Safe System approach promoted by the FHWA, the death or serious injury of any person is unacceptable. The Florida Transportation Plan (FTP), the state’s long-range transportation plan, identifies eliminating transportation-related fatalities and serious injuries as the state’s highest transportation priority. Therefore, FDOT established zero as the only acceptable target for all five federal safety performance measures.

MPO Safety Targets

MPOs are required to establish safety targets annually within 180 days of when FDOT established targets. MPOs establish targets by either agreeing to program projects that will support the statewide targets or establish their own quantitative targets for the MPO planning area.

The Martin MPO, along with FDOT and other traffic safety partners, shares a high concern about the upward trending of traffic fatalities, both statewide and nationally. As such, on December 12, 2022, the Martin MPO agreed to support FDOT’s statewide safety performance targets for calendar year 2023, thus agreeing to plan and program projects in the TIP that

once implemented, are anticipated to make progress toward achieving the statewide targets. The safety initiatives within this TIP are intended to contribute toward achieving these targets.

FDOT Safety Planning and Programming

Florida's Strategic Highway Safety Plan

Florida's Strategic Highway Safety Plan (SHSP), published in March 2021, specifically embraces Vision Zero and a new slogan and logo of Target Zero and identifies strategies to achieve zero traffic deaths and serious injuries. The SHSP was updated in coordination with Florida's 27 MPOs and the MPOAC, as well as other statewide traffic safety partners. The SHSP development process included review of safety-related goals, objectives, and strategies in MPO plans. The SHSP guides FDOT, MPOs, and other safety partners in addressing safety and defines a framework for implementation activities to be carried out throughout the state.

Florida's transportation safety partners have focused on reducing fatalities and serious injuries through the 4Es of engineering, education, enforcement, and emergency response. To achieve zero, FDOT and other safety partners will expand beyond addressing specific hazards and influencing individual behavior to reshaping transportation systems and communities to create a safer environment for all travel. The updated SHSP calls on Florida to think more broadly and inclusively by addressing four additional topics, which are referred to as the 4Is: information intelligence, innovation, insight into communities, and investments and policies. The SHSP also embraces an integrated "Safe System" approach that involves designing and managing road infrastructure to keep the risk of a mistake low and to ensure that when a mistake leads to a crash, the impact on the human body does not result in a fatality or serious injury. The five Safe System elements together create a holistic approach with layers of protection: safe road users, safe vehicles, safe speeds, safe roads, and post-crash care.

The SHSP also expands the list of emphasis areas for Florida's safety programs to include six evolving emphasis areas, which are high-risk or high-impact crashes that are a subset of an existing emphasis area or emerging risks and new innovations, where safety implications are unknown. These evolving emphasis areas include work zones, drowsy and ill driving, rail grade crossings, roadway transit, micromobility, and connected and automated vehicles.

Florida's Highway Safety Improvement Program

While the FTP and the SHSP both highlight the statewide commitment to a vision of zero deaths, the Florida Highway Safety Improvement Program (HSIP) Annual Report documents statewide performance and progress toward that vision. It also lists all HSIP projects that were obligated during the reporting year and the relationship of each project to the SHSP.

As discussed above, in the 2022 HSIP Annual Report, FDOT reported 2023 statewide safety performance targets at “0” for each safety performance measure to reflect the vision of zero deaths. Annually, FHWA determines whether Florida has met the targets or performed better than baseline for at least four of the five measures. If this does not occur FDOT must submit an annual implementation plan with actions it will take to meet targets in the future.

On April 21, 2022, FHWA reported the results of its 2020 safety target assessment. FHWA concluded that Florida had not met or made significant progress toward its 2020 safety targets, noting that zero had not been achieved for any measure and that only three out of five measures (number of serious injuries, serious injury rate, and number of non-motorized fatalities and serious injuries) were better than baseline. Subsequently, FDOT developed an HSIP Implementation Plan to highlight additional strategies it will undertake in support of the safety targets. This plan was submitted with the HSIP Annual Report to FWHA on August 31, 2022 will be made available at <https://highways.dot.gov/safety/hsip/reporting>.

Consistent with FHWA requirements, the HSIP Implementation Plan focuses specifically on implementation of the HSIP as a core federal-aid highway program and documents the continued enhancements planned for Florida's HSIP to better leverage the benefits of this program. However, recognizing that FDOT already allocates all HSIP funding to safety programs - and building on the integrated approach that underscores FDOT's safety programs – the HSIP Implementation Plan also documents how additional FDOT, and partner activities may contribute to progress toward zero. Building on the foundation of prior HSIP Implementation Plans, the 2022 HSIP Implementation Plan identifies the following key commitments:

- Improve partner coordination and align safety activities.
- Maximize HSIP infrastructure investments.
- Enhance safety data systems and analysis.
- Focus on safety marketing and education on target audiences.
- Capitalize on new and existing funding opportunities.

Florida conducts extensive safety data analysis to understand the state's traffic safety challenges and identify and implement successful safety solutions. Florida's transportation system is evaluated using location-specific analyses that evaluate locations where the number of crashes or crash rates are the highest and where fatalities and serious injuries are most prominent. These analyses are paired with additional systemic analyses to identify characteristics that contribute to certain crash types and prioritize countermeasures that can be deployed across the system as a whole. As countermeasures are implemented, Florida also employs predictive analyses to evaluate the performance of roadways (i.e., evaluating results of implemented crash modification factors against projected crash reduction factors).

FDOT's State Safety Office works closely with FDOT Districts and regional and local traffic safety partners to develop the annual HSIP updates. Historic, risk-based, and predictive safety analyses are conducted to identify appropriate proven countermeasures to reduce fatalities and serious injuries associated with Florida's SHSP emphasis areas, resulting in a list of projects that reflect the greatest needs and are anticipated to achieve the highest benefit. While these projects and the associated policies and standards may take years to be implemented, they are built on proven countermeasures for improving safety and addressing serious crash risks or safety problems identified through a data-driven process. Florida continues to allocate all available HSIP funding to safety projects. FDOT's HSIP Guidelines provide detailed information on this data-driven process and funding eligibility.

Florida received an allocation of approximately \$189 million in HSIP funds for use during the 2021 state fiscal year from July 1, 2021 through June 30, 2022, and fully allocated those funds to safety projects. FDOT used these HSIP funds to complete projects that address intersections, lane departure, pedestrian and bicyclist safety, and other programs representing the remaining SHSP emphasis areas. This year's HSIP allocated \$159.7 million in infrastructure investments on state-maintained roadways and \$22.1 million in infrastructure investments on local roadways. The remaining \$7.2 million included supporting activities such as transportation safety planning, preliminary engineering, traffic engineering studies, transportation statistics, and public information or education. A list of HSIP projects can be found in the HSIP 2021 Annual Report.

Beginning in fiscal year 2024, HSIP funding will be distributed among FDOT Districts based on statutory formula to allow the Districts to have more clearly defined funding levels for which they can better plan to select and fund projects. MPOs and local agencies coordinate with FDOT Districts to identify and implement effective highway safety improvement projects on non-state roadways.

Additional FDOT Safety Planning Activities

In addition to HSIP, safety is considered as a factor in FDOT planning and priority setting for projects in preservation and capacity programs. Data is analyzed for each potential project, using traffic safety data and traffic demand modeling, among other data. The Florida PD&E Manual requires the consideration of safety when preparing a proposed project's purpose and need as part of the analysis of alternatives. Florida design and construction standards include safety criteria and countermeasures, which are incorporated in every construction project. FDOT also recognizes the importance of the American Association of State Highway Transportation Official (AASHTO) Highway Safety Manual (HSM). Through dedicated and consistent training and messaging over the last several years, the HSM is now an integral part of project development and design.

FDOT holds Program Planning Workshops annually to determine the level of funding to be allocated over the next 5 to 10 years to preserve and provide for a safe transportation system. Certain funding types are further analyzed and prioritized by FDOT Central Offices, after projects are prioritized collaboratively by the MPOs, local governments, and FDOT Districts; for example, the Safety Office is responsible for the HSIP and Highway Safety Program (HSP) and the Systems Implementation Office is responsible for the Strategic Intermodal System (SIS). Both the Safety and SIS programs consider the reduction of traffic fatalities and serious injuries in their criteria for ranking projects.

Safety Investments in the TIP

The Martin MPO in coordination with FDOT, aims to make roads safety for all users in Martin County, and to meet the safety performance targets set on an annual basis. The Martin MPO activities such as the TIP, LRTP, and the UPWP, along with other documents, such as the Martin MPO Bicycle and Pedestrian Safety Action Plan, Complete Streets: Access to Transit Study, and the Vision Zero Plan, are dedicated to improving the safety of the transportation system in Martin County.

The TIP considers potential projects that fall into specific investment priorities established by the MPO in the Long Range Transportation Plan (LRTP). The process used to develop the MPO's Long-Range Transportation Plan includes analysis of safety data trends, including the location and factors associated with crashes with emphasis on fatalities and serious injuries. This data is used to help identify regional safety issues and potential safety strategies for the LRTP and TIP. Consistent with the MPO's 2045 LRTP, the TIP includes funding which is used for programs that improve safety in areas with a high number of bicycle and pedestrian crashes. The TIP also includes planning funds that are used by the MPO to educate and reinforce the message of how to walk, bicycle and drive safely. For the Martin MPO, this includes programs and projects such as:

- Annually launching a 'Call for Projects' for eligible Transportation Alternatives Program (TAP) projects. TAP provides funding for programs and projects defined as transportation alternatives, including on-and off-road pedestrian and bicycle facilities, and infrastructure projects for enhanced mobility and overall safety. Projects approved by the MPO Grant Screening Committee go through the MPO process, including presentations at the MPO advisory committee and Policy Board meetings for approval.
- Creating a Vision Zero Plan. The Martin MPO adopted a Vision Zero Plan to help identify the High Injury Networks in Martin County, and to prioritize those areas for safety counter measures as recommended by the Federal Highway Administration (FHWA).
- Conducting Complete Street studies, such as the upcoming Road to Vision Zero Study.
- Conducting feasibility studies for shared-use pathways that are a part of the East Coast Greenway, such as FM# 443505-1 - SR-5/US-1.
- Implementing congestion mitigation projects, such as FM# 441700-1 – Cove Road that will include bike lanes, sidewalks and a shared-use pathway and FM# 419669-3 – Willoughby Blvd. extension that will include a new two-lane roadway with bike lanes and a shared-use pathway.
- Martin MPO staff attends the Regional Treasure Coast Community Traffic Safety Team (CTST) quarterly meetings. Staff regularly presents upcoming Transportation Planning studies and public outreach previously held within the MPO planning boundary.
- CR 714/SW Martin Highway Realignment at SR 710.

The TIP includes specific investment priorities that support all the MPO's goals including safety, using the prioritization and project selection process established in the LRTP totaling over \$13 million dollars. This process evaluates projects that have an anticipated effect of reducing both fatal and injury crashes. The MPO's goal of reducing fatal and serious injury crashes is linked to this investment plan and the process used in prioritizing the projects is consistent with federal requirements. The FY24 - FY28 TIP includes improving safety conditions County-wide. These projects fall in the categories below. The Martin MPO continues monitoring investments in the TIP and demonstrating progress toward goals and objectives.

- Bicycle Lane/Sidewalk
- Lighting
- Traffic control devices/system
- Safety projects
- Corridor improvements
- Add turning lanes
- Signing and pavement markings

Pavement and Bridge Condition Measures (PM2)

FHWA's Bridge & Pavement Condition Performance Measures Final Rule, which is also referred to as the PM2 rule, requires state DOTs and MPOs to establish targets for the following six performance measures:

1. Percent of NHS bridges (by deck area) classified as in good condition;
2. Percent of NHS bridges (by deck area) classified as in poor condition;
3. Percent of Interstate pavements in good condition;
4. Percent of Interstate pavements in poor condition;
5. Percent of non-Interstate National Highway System (NHS) pavements in good condition; and
6. Percent of non-Interstate NHS pavements in poor condition;

For the pavement measures, five pavement metrics are used to assess condition:

- International Roughness Index (IRI) - an indicator of roughness; applicable to asphalt, jointed concrete, and continuous concrete pavements;
- Cracking percent - percentage of pavement surface exhibiting cracking; applicable to asphalt, jointed concrete, and continuous concrete pavements;
- Rutting - extent of surface depressions; applicable to asphalt pavements only;
- Faulting - vertical misalignment of pavement joints; applicable to jointed concrete pavements only; and
- Present Serviceability Rating (PSR) – a quality rating applicable only to NHS roads with posted speed limits of less than 40 miles per hour (e.g., toll plazas, border crossings). States may choose to collect and report PSR for applicable segments as an alternative to the other four metrics.

For each pavement metric, a threshold is used to establish good, fair, or poor condition. Using these metrics and thresholds, pavement condition is assessed for each 0.1 mile section of the through travel lanes of mainline highways on the Interstate or the non-Interstate NHS. Asphalt pavement is assessed using the IRI, cracking, and rutting metrics, while jointed concrete is assessed using IRI, cracking, and faulting. For these two pavement types, a pavement section is rated good if the ratings for all three metrics are good, and poor if the ratings for two or more metrics are poor.

Continuous concrete pavement is assessed using the IRI and cracking metrics. For this pavement type, a pavement section is rated good if both metrics are rated good, and poor if both metrics are rated poor.

If a state collects and reports PSR for any applicable segments, those segments are rated according to the PSR scale. For all three pavement types, sections that are not good or poor are rated fair.

The good/poor measures are expressed as a percentage and are determined by summing the total lane-miles of good or poor highway segments and dividing by the total lane-miles of all highway segments on the applicable system. Pavement in good condition suggests that no major investment is needed and should be considered for preservation treatment. Pavement in poor condition suggests major reconstruction investment is needed due to either ride quality or a structural deficiency.

The bridge condition measures refer to the percentage of bridges by deck area on the NHS that are in good condition or poor condition. The measures assess the condition of four bridge components: deck, superstructure, substructure, and culverts. Each component has a metric rating threshold to establish good, fair, or poor condition. Each bridge on the NHS is evaluated using these ratings. If the lowest rating of the four metrics is greater than or equal to seven, the structure is classified as good. If the lowest rating is less than or equal to four, the structure is classified as poor. If the lowest rating is five or six, it is classified as fair.

The bridge measures are expressed as the percent of NHS bridges in good or poor condition. The percent is determined by summing the total deck area of good or poor NHS bridges and dividing by the total deck area of the bridges carrying the NHS. Deck area is computed using structure length and either deck width or approach roadway width.

A bridge in good condition suggests that no major investment is needed. A bridge in poor condition is safe to drive on; however, it is nearing a point where substantial reconstruction or replacement is needed.

Pavement and Bridge Condition Statewide Targets

Federal rules require state DOTs to establish two-year and four-year targets for the bridge and pavement condition measures. On December 16, 2022, FDOT established statewide bridge and pavement targets for the second performance

period ending in 2025. These targets are identical to those set for 2019 and 2021, respectively. Florida’s performance through 2021 exceeds the targets. The two-year targets represent bridge and pavement condition at the end of calendar year 2023, while the four-year targets represent condition at the end of 2025. Table 6 presents the statewide targets.

Table 6 – Pavement and Bridge Condition Performance Targets

Performance Measure	2023 Statewide Target	2025 Statewide Target
Percent of NHS bridges (by deck area) in good condition	50.0%	50.0%
Percent of NHS bridges (by deck area) in poor condition	10.0%	10.0%
Percent of Interstate pavements in good condition	60%	60%
Percent of Interstate pavements in poor condition	5.0%	5.0%
Percent of non-Interstate pavements in good condition	40.0%	40.0%
Percent of non-Interstate pavements in poor condition	5.0%	5.0%

For comparative purposes, the baseline (2021) conditions are as follows:

- 61.3 percent of NHS bridges (by deck area) is in good condition and 0.5 percent is in poor condition.
- 70.5 percent of the Interstate pavement is in good condition and 0.7 percent is in poor condition;
- 47.5 percent of the non-Interstate NHS pavement is in good condition and 1.1 percent is in poor condition; and

In determining its approach to establishing performance targets for the federal bridge and pavement condition performance measures, FDOT considered many factors. FDOT is mandated by Florida Statute 334.046 to preserve the state’s bridges and pavement to specific state-defined standards. To adhere to the statutory guidelines, FDOT prioritizes funding allocations to ensure the current transportation system is adequately preserved and maintained before funding is allocated for capacity

improvements. These state statutory guidelines envelope the statewide federal targets that have been established for pavements and bridges.

In addition, FDOT develops a Transportation Asset Management Plan (TAMP) for all NHS pavements and bridges within the state. The TAMP must include investment strategies leading to a program of projects that would make progress toward achievement of the State's targets for asset condition and performance of the NHS. FDOT's first TAMP was approved on June 28, 2019. The TAMP has since been updated in 2022 and is waiting final approval from FHWA.

Further, the federal pavement condition measures require a methodology that is different from the methods historically used by FDOT. For bridge condition, the performance is measured in deck area under the federal measure, while FDOT programs its bridge repair or replacement work on a bridge-by-bridge basis. As such, the federal measures are not directly comparable to the methods that are most familiar to FDOT. For pavement condition, the methodology uses different ratings and pavement segment lengths, and FDOT only has one year of data available for non-Interstate NHS pavement using the federal methodology.

FDOT collects and reports bridge and pavement data to FHWA each year to track performance and progress toward the targets. The percentage of Florida's bridges in good condition is slowly decreasing, which is to be expected as the bridge inventory grows older. Reported bridge and pavement data through 2021 exceeded the established targets. Based on anticipated funding levels, FDOT believes the previous targets are still appropriate for 2023 and 2025.

In early 2021, FHWA determined that FDOT made significant progress toward the 2019 targets; FHWA's assessment of progress toward the 2021 targets is anticipated to be released in March 2023.

Pavement and Bridge Condition Targets for Martin MPO

MPOs must set four-year targets for the six pavement and bridge condition measures within 180 days of when FDOT established targets. MPOs can either agree to program projects that will support the statewide targets or establish their own quantifiable targets for the MPO's planning area for one or more measures.

On April 17, 2023, the Martin MPO agreed to support FDOT's statewide pavement and bridge performance targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets.

Pavement and Bridge Investments in the TIP

The Martin MPO TIP reflects investment priorities established in the 2045 LRTP. The TIP devotes a significant amount of resources to projects that will maintain pavement and bridge condition performance. Investments in pavement and bridge condition include resurfacing and bridge replacement/rehabilitation projects. The following are example projects funded in this TIP that address system preservation/maintenance of pavement and bridge conditions:

- SR-714/SW Martin Highway SW Stuart West Boulevard to West of Citrus Boulevard – Resurfacing
- SE Indian Street from SE Gatehouse Circle to US-1/SE Federal Highway – Resurfacing
- CR-714/Martin Highway from SR-710/SW Warfield Blvd to SW Fox Brown Rd – Resurfacing
- US-1 from SE Contractors Way to North Jensen Beach Boulevard - Resurfacing
- I-95 from South of Kanner Highway to Martin/St. Lucie County Line - Resurfacing
- SW Martin Hwy from East of SW Stuart W Blvd to West of Citrus Blvd – Resurfacing
- US-1 from .5 Mile South of SE Dixie Hwy to South of SE Heritage Blvd – Resurfacing
- US-98/Conners Highway from Palm Beach/Martin County Line to Martin/Okeechobee County Line - Resurfacing
- SE Indian Street from SR-76/Kanner Highway to US-1 – Resurfacing
- NE Jensen Beach Blvd. from Savannah Rd. to NE Indian River Dr. – Resurfacing
- Martin Hwy from SR-710/SW Warfield Blvd to SW Fox Brown Rd – Resurfacing
- Fox Brown Rd. from SW Warfield Blvd. to SW Martin Hwy. – Resurfacing
- SE Bridge Road Bascule Bridge - Bridge Rehabilitation
- SW 96th Street Arundel Bridge - Bridge Rehabilitation

The TIP seeks to address system preservation in the metropolitan planning area and provides funding for targeted improvements. The Infrastructure Maintenance and Congestion Management Goal in the 2045 LRTP includes objective the of Prioritizing improvements that help maintain existing roadways and bridges as well as identifies the PM2 performance measures and targets as metrics to monitor progress. Further, investments in pavement and bridge condition include resurfacing and bridge replacement/rehabilitation projects in the TIP. The TIP includes over \$91 million in resurfacing and bridge projects.

The projects included in the TIP are consistent with FDOT's Five Year Work Program, and therefore to FDOT's approach to prioritize funding to ensure the transportation system is adequately preserved and maintained. Per federal planning requirements, the state selects projects on the NHS in cooperation with the MPO from the approved TIP. Given the significant resources devoted in the TIP to pavement and bridge projects, the MPO anticipates that once implemented, the TIP will contribute to progress towards achieving the statewide pavement and bridge condition performance targets.

System Performance, Freight, Congestion Mitigation & Air Quality Improvement Program Measures (PM3)

FHWA's System Performance/Freight/CMAQ Performance Measures Final Rule, which is referred to as the PM3 rule, requires state DOTs and MPOs to establish targets for the following six performance measures:

National Highway Performance Program (NHPP)

1. Percent of person-miles traveled on the Interstate system that are reliable
2. Percent of person-miles traveled on the non-Interstate NHS that are reliable;

National Highway Freight Program (NHFP)

3. Truck Travel Time Reliability index (TTTR);

Congestion Mitigation and Air Quality Improvement Program (CMAQ)

4. Annual hours of peak hour excessive delay per capita (PHED);
5. Percent of non-single occupant vehicle travel (Non-SOV); and
6. Cumulative 2-year and 4-year reduction of on-road mobile source emissions (NO_x, VOC, CO, PM₁₀, and PM_{2.5}) for CMAQ funded projects.

Because all areas in Florida meet current national air quality standards, the three CMAQ measures do not apply in Florida. A description of the first three measures is below.

The first two performance measures assess the percent of person-miles traveled on the Interstate or the non-Interstate NHS that are reliable. Reliability is defined as the ratio of longer travel times to a normal travel time over of all applicable roads, across four time periods between the hours of 6 a.m. and 8 p.m. each day.

The third performance measure assesses the reliability of truck travel on the Interstate system. The TTTR assesses how reliable the Interstate network is by comparing the worst travel times for trucks against the travel time they typically experience.

System Performance and Freight Statewide Targets

Federal rules require state DOTs to establish two-year and four-year targets for the system performance and freight targets. On December 16, 2022, FDOT established statewide performance targets for the second performance period ending in 2025. These targets are identical to those set for 2019 and 2021, respectively. Florida’s performance through 2021 exceeds the targets. The two-year targets represent performance at the end of calendar year 2023, while the four-year targets represent performance at the end of 2025. Table 5.1 presents the statewide targets.

Table 7 – System Performance and Freight Targets

Performance Measure	2023 Statewide Target	2025 Statewide Target
Percent of person-miles on the Interstate system that are reliable	75.0%	70.0%
Percent of person-miles on the non-Interstate NHS that are reliable	50.0%	50.0%
Truck travel time reliability (Interstate)	1.75	2.00

For comparative purposes, baseline (2021) statewide conditions are as follows:

- 87.5 percent of person-miles traveled on the Interstate are reliable;
- 92.9 percent of person-miles traveled on the non-Interstate are reliable; and
- 1.38 truck travel time reliability index.

In establishing these targets, FDOT reviewed external and internal factors that may affect reliability, analyzed travel time data from the National Performance Management Research Dataset (NPMRDS), and developed a sensitivity analysis indicating the level of risk for road segments to become unreliable.

FDOT collects and reports reliability data to FHWA each year to track performance and progress toward the reliability targets. Performance for all three measures improved from 2017 to 2021, with some disruption in the trend during the global pandemic in 2020. Actual performance in 2019 was better than the 2019 targets, and in early 2021 FHWA determined that FDOT made significant progress toward the 2019 targets. FHWA's assessment of progress toward the 2021 targets is anticipated to be released in March 2023.

The methodologies for the PM3 measures are still relatively new, and the travel time data source has changed since the measures were first introduced. As a result, FDOT only has three years (2017-2019) of pre-pandemic travel reliability trend data as a basis for future forecasts. Based on the current data, Florida's performance continues to exceed the previous targets. Given the uncertainty in future travel behavior, FDOT believes the previous targets are still appropriate for 2023 and 2025.

System performance and freight are addressed through several statewide initiatives:

- Florida's Strategic Intermodal System (SIS) is composed of transportation facilities of statewide and interregional significance. The SIS is a primary focus of FDOT's capacity investments and is Florida's primary network for ensuring a strong link between transportation and economic competitiveness. These facilities, which span all modes and includes highways, are the workhorses of Florida's transportation system and account for a dominant share of the people and freight movement to, from and within Florida. The SIS includes 92 percent of NHS lane miles in the state. Thus, FDOT's focus on improving performance of the SIS goes hand-in-hand with improving the NHS, which is the focus of the FHWA's TPM program. The SIS Policy Plan was updated in early 2022 consistent with the updated FTP. The SIS Policy Plan defines the policy framework for designating which facilities are part of the SIS, as well as how SIS investments needs are identified and prioritized. The development of the SIS Five-Year Plan by FDOT considers scores on a range of measures including mobility, safety, preservation, and economic competitiveness as part of FDOT's Strategic Investment Tool (SIT).
- In addition, FDOT's Freight Mobility and Trade Plan (FMTP) defines policies and investments that will enhance Florida's economic development efforts into the future. The FMTP identifies truck bottlenecks and other freight investment needs and defines the process for setting priorities among these needs to receive funding from the National Highway Freight Program (NHFP). Project evaluation criteria tie back to the FMTP objectives to ensure high priority projects support the statewide freight vision. In February 2018, FHWA approved the FMTP as FDOT's State Freight Plan. FDOT updated the plan in spring 2020.

- FDOT also developed and refined a methodology to identify freight bottlenecks on Florida's SIS on an annual basis using vehicle probe data and travel time reliability measures. Identification of bottlenecks and estimation of their delay impact aids FDOT in focusing on relief efforts and ranking them by priority. In turn, this information is incorporated into FDOT's SIT to help identify the most important SIS capacity projects to relieve congestion.

System Performance and Freight Targets for Martin MPO

MPOs must establish four-year targets for all three performance measures. MPOs can either agree to program projects that will support the statewide targets or establish their own quantifiable targets for the MPO's planning area for one or more measures.

On April 17, 2023, the Martin MPO agreed to support FDOT's statewide system performance and freight targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets.

System Performance and Freight Investments in TIP

The Martin MPO TIP reflects investment priorities established in the 2045 LRTP. The focus of Martin MPO's investments that address system performance and freight include the following example projects detailed in this TIP:

- Willoughby Blvd from Monterey Road to US 1 – New two-lane road
- SR-710/SW Warfield Boulevard at CR-714/SW Martin Hwy – Widening
- Cove Road from Kanner Highway to US-1 – Widening
- Monterey Road at FEC Railroad Crossing - Grade Separation
- I-95 Martin Weigh Station – Inspection Barn Upgrades
- CR 713/High Meadow Ave from I-95 to Martin Hwy – Widening
- SR 710/Warfield Boulevard from Martin FPL PowerPlant Access Road to CR 609/Allapattah Road - Widening

The TIP devotes a significant amount of resources to programs and projects that will improve system performance and freight reliability on the Interstate and non-Interstate NHS.

The Martin MPO TIP reflects priorities in the Martin MPO 2045 LRTP that looked to address system reliability and congestion mitigation through various means, including capacity expansion and operational improvements. The Infrastructure

Maintenance and Congestion Management Goal includes several objectives, such as manage traffic congestion, support improvements to major freight corridors, implement strategies to reduce per capita vehicle miles of travel, and prioritize funding to support smaller scale congestion management projects and programs. Further, several performance measures include PM3 are identified to evaluate and prioritize projects. As part of the 2045 LRTP, several strategies were included in the CMP Update. The Martin MPO's investments in the TIP that address system performance and freight on the NHS include over \$26 million in intersection/congestion management and freight projects.

The projects included in the TIP are consistent with FDOT's Five Year Work Program, and therefore to FDOT's approach to prioritize funding to address performance goals and targets. Per federal planning requirements, the state selects projects on the NHS in cooperation with the MPO from the approved TIP. Given the significant resources devoted in the TIP to programs that address system performance and freight, the MPO anticipates that once implemented, the TIP will contribute to progress towards achieving the statewide reliability performance targets.

Transit Asset Management Measures

FTA's Transit Asset Management (TAM) regulations apply to all recipients and subrecipients of Federal transit funding that own, operate, or manage public transportation capital assets. The regulations define the term "state of good repair," require that public transportation providers develop and implement TAM plans, and established state of good repair standards and performance measures for four asset categories: equipment, rolling stock, transit infrastructure, and facilities. Table 8 identifies the TAM performance measures.

Table 8 – FTA TAM Performance Measures

Asset Category	Performance Measure
1. Equipment	Percentage of non-revenue, support-service and maintenance vehicles that have met or exceeded their Useful Life Benchmark
2. Rolling Stock	Percentage of revenue vehicles within a particular asset class that have either met or exceeded their Useful Life Benchmark
3. Infrastructure	Percentage of track segments with performance restrictions

Asset Category	Performance Measure
4. Facilities	Percentage of facilities within an asset class rated below condition 3 on the TERM scale

For equipment and rolling stock classes, useful life benchmark (ULB) is defined as the expected lifecycle of a capital asset, or the acceptable period of use in service, for a particular transit provider’s operating environment. ULB considers a provider’s unique operating environment such as geography, service frequency, etc.

Public transportation providers are required to establish and report TAM targets annually for the following fiscal year. Each public transportation provider or its sponsors must share its targets with each MPO in which the public transportation provider’s projects and services are programmed in the MPO’s TIP. MPOs are not required to establish TAM targets annually each time the transit provider establishes targets. Instead, MPO targets must be established when the MPO updates the LRTP (although it is recommended that MPOs reflect the most current transit provider targets in the TIP if they have not yet taken action to update MPO targets). When establishing TAM targets, the MPO can either agree to program projects that will support the transit provider targets or establish its own separate regional TAM targets for the MPO planning area. MPO targets may differ from agency targets, especially if there are multiple transit agencies in the MPO planning area. To the maximum extent practicable, public transit providers, states, and MPOs must coordinate with each other in the selection of performance targets.

The TAM regulation defines two tiers of public transportation providers based on size parameters. Tier I providers are those that operate rail service, or more than 100 vehicles in all fixed route modes, or more than 100 vehicles in one non-fixed route mode. Tier II providers are those that are a subrecipient of FTA 5311 funds, or an American Indian Tribe, or have 100 or less vehicles across all fixed route modes or have 100 or less vehicles in one non-fixed route mode. A Tier I provider must establish its own TAM targets, as well as report performance and other data to FTA. A Tier II provider has the option to establish its own targets or to participate in a Group Plan with other Tier II providers whereby targets are established for the entire group in coordination with a group plan sponsor, typically a state DOT.

Transit Asset Management Targets

Martin County Public Transit (MCPT) is the sole Tier II provider of public transit in the Martin MPO planning area. MCPT reviewed and approved TAM targets for each of the applicable asset categories on February 1, 2023. Table 9 on the following page presents these targets.

Table 9 – MCPT Asset Management Targets

Asset Category	Performance Measure	Asset Class		2023 Target	2024 Target	2025 Target	2026 Target	2027 Target
Revenue Vehicles	Age - percent of revenue vehicles within a particular asset class that have met or exceeded their Useful Life	BU	Bus	0%	0%	0%	0%	0%
		CU	Cutaway	0%	0%	100%	0%	0%
Equipment	Age - percent of vehicles within a particular asset class that have met or exceeded their Useful Life	Non-Revenue/Service Automobile 2017		0%	0%	0%	0%	0%
		Trucks and other Rubber Tire Vehicle 2018		0%	0%	0%	0%	0%
Facilities	Condition - percent of facilities with a condition rating below 3.0 on the FTA Transit Economic Requirements Model (TERM) Scale	Maintenance facility (leased)		N/A	N/A	N/A	N/A	N/A

The transit provider's TAM targets are based on the condition of existing transit assets and planned investments in equipment, rolling stock, infrastructure, and facilities. The targets reflect the most recent data available on the number, age, and condition of transit assets, and capital investment plans for improving these assets. The table summarizes both existing conditions for the most recent year available, and the current targets.

MPO Transit Asset Management Targets

As discussed above, MPOs established TAM targets within 180 days of the date that public transportation providers established their first targets in 2018. MPOs are not required to establish TAM targets annually each time the transit provider establishes targets. Instead, MPO's must revisit targets each time the MPO updates the LRTP. MPOs can either agree to program projects that will support the transit provider targets or establish separate regional TAM targets for the MPO planning area. MPO targets may differ from agency targets, especially if there are multiple transit agencies in the MPO planning area.

On September 17, 2018, the Martin MPO agreed to support the Martin County Public Transit's TAM targets, thus agreeing to plan and program projects in the TIP that will, once implemented, are anticipated to make progress toward achieving the transit provider targets.

Transit Asset Management Investments in the TIP

The Martin MPO TIP was developed and is managed in cooperation with MCPT. It reflects the investment priorities established in the 2045 LRTP.

FTA funding, as programmed by the region's transit providers and FDOT, is used for programs and products to improve the condition of the region's transit assets. The focus of Martin MPO's investments that address transit state of good repair include:

- Section 5307 Formula Funds
- Section 5339 Capital for Bus & Bus Facilities

Transit asset condition and state of good repair is a consideration in the methodology Martin MPO uses to select projects for inclusion in the TIP. The TIP includes specific investment priorities that support all the MPO's goals, including supporting improvements to transit, using a prioritization and project selection process established in the LRTP. This process evaluates projects that, once implemented, are anticipated to improve transit state of good repair in the MPO's planning area. This prioritization process considers factors such as transit supply, demand and cost; system reliability; system performance; maintenance of resources; maintain fleet revenue vehicles; and maintenance of other equipment.

The TIP devotes resources to projects that will maintain and improve transit state of good repair. Investments in transit assets in the TIP includes \$3.9 million for capital purchases.

The Martin MPO TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the TAM performance targets. The Martin MPO will continue to coordinate with MCPT to maintain the region's transit assets in a state of good repair. For more information on these programs and projects, see Section B of the appendix.

Transit Safety Performance

FTA's Public Transportation Agency Safety Plan (PTASP) regulations established transit safety performance management requirements for providers of public transportation systems that receive federal financial assistance under 49 U.S.C. Chapter 53.

The regulations apply to all operators of public transportation that are a recipient or sub-recipient of FTA Urbanized Area Formula Grant Program funds under 49 U.S.C. Section 5307, or that operate a rail transit system that is subject to FTA's State Safety Oversight Program. The PTASP regulations do not apply to certain modes of transit service that are subject to the safety jurisdiction of another Federal agency, including passenger ferry operations regulated by the United States Coast Guard, and commuter rail operations that are regulated by the Federal Railroad Administration.

The PTASP must include performance targets for the performance measures established by FTA in the National Public Transportation Safety Plan, which was published on January 28, 2017. The transit safety performance measures are:

- Total number of reportable fatalities and rate per total vehicle revenue miles by mode.
- Total number of reportable injuries and rate per total vehicle revenue miles by mode.
- Total number of reportable safety events and rate per total vehicle revenue miles by mode.

- System reliability – mean distance between major mechanical failures by mode.

In Florida, each Section 5307 or 5311 transit provider must develop a System Safety Program Plan (SSPP) under Chapter 14-90, Florida Administrative Code. FDOT technical guidance recommends that Florida’s transit agencies revise their existing SSPPs to be compliant with the new FTA PTASP requirements.¹

Each provider of public transportation that is subject to the PTASP regulations must certify that its SSPP meets the requirements for a PTASP, including transit safety targets for the federally required measures. Providers were required to certify their initial PTASP and safety targets by July 20, 2021. Once the public transportation provider establishes safety targets it must make the targets available to MPOs to aid in the planning process. MPOs had 180 days after receipt of the PTASP targets to establish transit safety targets for the MPO planning area. MPOs are not required to establish transit safety targets annually each time the transit provider establishes targets. Instead, subsequent MPO targets must be established when the MPO updates the LRTP. When establishing transit safety targets, the MPO can either agree to program projects that will support the transit provider targets or establish its own separate regional transit safety targets for the MPO planning area. In addition, the Martin MPO must reflect those targets in LRTP and TIP updates.

Transit Agency Safety Targets

MCPT established the transit safety targets identified in Table 10 below on December 6, 2022:

Table 10 – MCPT Safety Performance Targets

Transit Safety Performance Targets							
Mode of Transit	Fatalities (Total)	Fatalities (Rate per Total VRM)	Injuries (Total)	Injuries (Rate per Total VRM)	Safety Events (Total)	Safety Events (Rate per Total VRM)	System Reliability (VRM/failures)
Fixed Route Bus	0	0	0	0	0	0	54,950
Commuter Bus	0	0	0	0	0	0	28,661
ADA Paratransit	0	0	0	0	0	0	0

¹ FDOT Public Transportation Agency Safety Plan Guidance Document for Transit Agencies. Available at <https://www.fdot.gov/transit/default.shtm>

MPO Transit Safety Targets

As discussed above, MPOs are not required to establish transit safety targets annually each time the transit provider establishes targets. Instead, MPO's must revisit targets each time the MPO updates the LRTP. MPOs can either agree to program projects that will support the transit provider targets or establish separate regional transit safety targets for the MPO planning area. MPO targets may differ from agency targets, especially if there are multiple transit agencies in the MPO planning area.

On September 21, 2020, the Martin MPO agreed to support MCPT's transit safety targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the provider's targets.

Transit Safety Improvements in the TIP

The Martin MPO TIP was developed and is managed in cooperation with MCPT. It reflects the investment priorities established in the 2045 LRTP. Factors such as travel time reliability, level of service, delay, funding, quality of life, safety (number of fatalities and injury crashes), environment, environmental justice, accessibility to jobs, strategic projects, and community support are considered when creating the LRTP. Transit projects were prioritized consistent with the Martin County's Transit Development Plan (TDP), 2020-2029 adopted in August 2019.

FTA funding, as programmed by the region's transit providers and FDOT, is used for programs and products to improve the safety of the region's transit systems. The MCPT PTASP is included in the appendix. Transit safety is a consideration in the methodology Martin MPO uses to select projects for inclusion in the TIP. The TIP includes specific investment priorities that support all of the MPO's goals, including transit safety, using a prioritization and project selection process established in the LRTP. This prioritization process considers safety as a factor in this prioritization process.

The TIP is also consistent with the Goals and Objectives in the 2045 LRTP. An objective under Goal #2 in the LRTP is *reduce transit vehicle crashes and facility-accidents*. This process evaluates projects that, once implemented, are anticipated to improve transit safety in the MPO's planning area. The Martin MPO TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the transit safety performance targets. The Martin MPO will continue to coordinate with MCPT to maintain and improve the safety of

the region's transit system and maintain transit assets in a state of good repair. For more information on these programs and projects, see Section B of the appendix.

2.8 CONSISTENCY WITH REGIONAL AND LOCAL PLANS

The 2045 LRTP was adopted by the MPO on October 19, 2020 after a duly advertised public hearing. The transportation goals found within Martin County's Comprehensive Growth Management Plan and the City of Stuart's Comprehensive Plan are consistent with the goals, objectives, and policies in the 2045 LRTP as well as the Florida Transportation Plan.

To the maximum extent feasible, the TIP is consistent with the 2040 Treasure Coast Regional Long Range Transportation Plan (RLRTP), Witham Field Airport Master Plan, the Martin County Transportation Disadvantaged Service Plan, the Transit Development Plan, and the approved Comprehensive Plans of Martin County, the City of Stuart, the Town of Sewall's Point, the Town of Jupiter Island, the Village of Indiantown and the Town of Ocean Breeze.

2.9 CONGESTION MANAGEMENT PROCESS

Maintenance of a Congestion Management Process (CMP) or System is a requirement for all MPOs under Florida law and for MPOs in Transportation Management Areas under Federal law. A CMP is a tool that provides information needed to evaluate and improve traffic flows. The CMP is intended to help relieve congestion and enhance mobility by establishing methods to monitor and evaluate performance, identifying alternative actions, assessing and implementing cost-effective actions, and evaluating the effectiveness of implemented actions.

Candidate road sections are selected in a three-phase selection. The first phase identifies road segments that have a potential for congestion. The second phase is the development of a preliminary list of congested segments. The third phase is to determine and verify potential congested segments. Based on the analysis, there were a total of 14 corridors that were determined to have potential segments for congestion:

- Bridge Road
- Jensen Beach Boulevard

3.0 PUBLIC INVOLVEMENT

3.1 CONSISTENCY WITH PUBLIC

PLAN

The TIP was developed in accordance with the adopted MPO Public Participation Plan (PPP). Once the Draft TIP is completed, a notice will be advertised announcing that it is available for a 45-day public review period. During the public review process, the Draft TIP will be made available on the MPO website and on the Martin County website. It will also be presented at public meetings in conjunction with the Citizens Advisory Committee (CAC), the Technical Advisory Committee (TAC), the Bicycle & Pedestrian Advisory Committee (BPAC) and the MPO Board. After the 45-day review period, the Draft TIP will be brought before the MPO Board for a public hearing and final approval. This process fulfills the public involvement requirements for the Martin County Public Transit (MCPT) Program of Projects (POP) under Section 5307.

As described above, TIP Amendments and Administrative Modifications will also be advertised and made available for public review and comment prior to being brought before the MPO Board for final review and approval. Comments received during the review period will be summarized by category and addressed through documented modifications to the TIP.

3.2 TIMELINE OF EFFORTS

See Table 11 for the Martin MPO timeline of Public Involvement efforts for this TIP.

Table 11
Timeline of Public Involvement Efforts

TASK	DATE
Distribute Draft TIP in TAC Agenda Packet	25-April-23
Distribute Draft TIP in CAC Agenda Packet	26-April-23
Distribute Draft TIP in BPAC Agenda Packet	1-May-23
Review Draft TIP @ TAC Meeting	1-May-23
Review Draft TIP @ CAC Meeting	3-May-23
Begin 45 Days Public Review Period	5-May-23
Post Draft TIP on MPO Website	5-May-23
Draft TIP on Martin County Government/Library System website	5-May-23
Send Draft TIP to Federal and State agencies for preliminary review	5-May-23
Publish Notice of Public Hearing for MPO Board	5-May-23
Review Draft TIP @ BPAC Meeting	8-May-23
Distribute Draft TIP in MPO Policy Board Agenda Packet	8-May-23
Review Draft TIP @ MPO Board Meeting	15-May-23
Distribute Final Draft TIP in TAC Agenda Packet	29-May-23
Distribute Final Draft TIP in CAC Agenda Packet	31-May-23
Review Final Draft TIP @ TAC Meeting	5-June-23
Distribute Final Draft TIP in BPAC Agenda Packet	5-June-23
Review Final Draft TIP @ CAC Meeting	7-June-23
Review Final Draft TIP @ BPAC Meeting	12-June-23
Distribute Final Draft TIP in MPO Board Agenda Packet	12-June-23
Review and Approve Final TIP @ MPO Board Meeting / Public Hearing	19-June-23

3.3 PUBLIC COMMENTS & RESPONSE

Martin County does not have any Tribes or Federal Lands. Thus, the federal requirement to coordinate with these entities does not apply to Martin MPO. Public comments related to the TIP can be submitted in various ways:

Online through the MPO website - www.martinmpo.com

Email - martinmpo@martin.fl.us

Phone - (772) 223 - 7983

Mail/Hand Delivery - 3481 SE Willoughby Boulevard, Suite 101, Stuart, FL 34994

TIP Public Hearing - June 19, 2023 at 9:00 AM in the Martin County Administrative Center, 2401 SE Monterey Road, Stuart, FL 34996

PUBLIC WORKS AND ENGINEERING

The Public Works Department provides a variety of services directed toward the repair and maintenance of municipal properties, infrastructure and equipment. The goal of this department is to provide top quality, professional, effective and timely delivery of services to residents, businesses and Village departments to assure utmost customer satisfaction.

In FY2022, the Village purchased the utility facility to improve the quality of water and wastewater to the community.

Mission:

To improve the quality of life for Village and staff through responsive, efficient and effective delivery of services, promote public health, personal safety, transportation, economic growth and civic vitality.

FY 2022 Major Accomplishments:

- Coordinated the efforts in the Phase I of the Village Hall Complex
- Coordinated with staff in researching and applying for grants
- Commenced work activity for roadway and drainage improvement projects
- Worked in concert with staff to prepare plans for beautification and fix-up projects in the community
- Coordinated efforts to clean and unclog drains along roadways
- Develop administrative policies to manage facilities maintenance, infrastructure maintenance and fleet

FY 2023 Major Projects and Initiatives:

- Ongoing efforts to develop administrative policies to manage facilities maintenance, infrastructure maintenance and fleet
- Assist in the preparation of the solicitations for professional services and other major equipment
- Manage the Five-Year Capital Improvement Plan
- Implement strategies to support neighborhood beautification projects through the use of Village Corps
- Implement the projects approved for in accordance with the American Rescue Plan Act (ARPA) Allowance
- Continue to make improvements in the organization and operations of the utility facility
- Purchase dump truck

Staffing Levels:

There are no changes for FY2023. However, the budget includes a 50% split for the Purchasing Administrator and Accounting Clerk positions.

FY2023 Adopted Expenditures

Budget Summary:

Expenditure Category	FY 2021 Actual	FY 2022 Revised Budget	FY 2023 Adopted Budget	Increase/Decrease	% Change
Personnel Services	\$0	\$0	\$69,545	\$69,545	100.00%
Operating Expenditures	\$1,692,483	\$966,000	\$836,054	(\$129,946)	-13.45%
Capital Outlay	\$2,145	\$20,000	\$0	(\$20,000)	-100.00%
Debt Service	\$0	\$0	\$0	\$0	N/A
Aids & Donations	\$0	\$0	\$0	\$0	N/A
Other Uses/Contingency	\$0	\$25,000	\$30,000	\$5,000	20.00%
Total	\$1,694,628	\$1,011,000	\$935,599	(\$75,401)	-7.46%

Budget Highlight:

Expenditures decreased by -\$75,401 or -7.46%. **Personnel Services** increased by \$69,545, which is mostly due to the anticipated 5% merit and COLA and other employer benefit increases for the Director position. This position is split funded by both General Fund and the Water and Sewer Fund. **Operating expenditures** decreased by -\$129,946 or -13.45%, which is mostly due to the reorganization of expenditures throughout the other departments, such as utilities and information technology expenses. In addition, a conservative approach and inventory of expenses yielded a decreased budget request. **Capital Outlay** decreased by -\$20,000 as there no anticipated capital outlay purchases. **Other Uses/Contingency** increased slightly by \$5,000 or 20.00% for unanticipated expenses and emergencies.

Intergovernmental Gov't Revenue	\$0	\$0	\$0	\$0	N/A
Miscellaneous Revenues	\$1,245	\$12,100	\$45,270	\$33,170	274.13%
Total	\$502,535	\$2,100,000	\$2,154,690	\$54,690	2.60%

Expenditure Category	FY 2021 Actual	FY 2022 Revised Budget	FY 2023 Proposed Budget	Increase/Decrease	% Change
Personnel Services	\$523,309	\$580,998	\$808,901	\$227,903	39.23%
Operating Expenditures	\$1,476,761	\$1,109,577	\$1,189,448	\$79,871	7.20%
Capital Outlay	\$43,320	\$100,000	\$20,000	(\$80,000)	-80.00%
Debt Service	\$4,899	\$85,666	\$84,341	(\$1,325)	-1.55%
Aids & Donations	\$0	\$0	\$0	\$0	N/A
Other Uses/Contingency	\$857	\$223,759	\$52,000	(\$171,759)	-76.76%
Total	\$2,049,146	\$2,100,000	\$2,154,690	\$54,690	2.60%

Budget Highlight:

Revenues increased by \$54,690 or 2.60%. **Fines & Forfeitures** increased by \$100 or .46%, which is a conservative increase. **Charges for Services** increased by \$21,420 or 1.04%, which is a moderate increase and based upon the mid-year actuals. However, with new developments and improvements this category of revenue will increase significantly by FY2024. **Miscellaneous Revenues** increased by \$33,170, mostly due to Guarantee Revenue agreements approved in fiscal year 2022.

Expenditures increased by \$54,690 or 2.60%. **Personnel Services** increased by \$227,903 or 39.23%, which is mostly due to the anticipated 5% merit and COLA and other employer benefit increases, as well as the 50% split of the Purchasing Administrator and Accounting Clerk positions. **Operating expenditures** increased by \$79,871 or 7.20%, which is mostly due to contractual increases and increases for repair and maintenance of the utility facility. **Capital Outlay** decreased by -\$80,000 for unanticipated capital outlay purchases. **Debt Service** decreased by -\$1,325 or -1.55%, which is the interest due on the utility facility loan. **Other Uses/Contingency** decreased by -\$171,759 due to reducing the transfer to the General Fund and contingency amount.

Table 12 - Transportation Disadvantaged (TD) Program

Transportation Disadvantaged (TD) services are provided pursuant to Florida Statute 427.015. In Martin County, the MPO is the Designated Official Planning Agency (DOPA) and the Senior Resource Association is the Community Transportation Coordinator (CTC). For FY 2023/24, the Commission for the Transportation Disadvantaged has programmed the following funds for the Martin County TD program:

TD is defined as those persons who, because of physical or mental disability, income status or age are unable to transport themselves or to purchase transportation and are, therefore, dependent on others to obtain access to health care, employment, education, shopping, social activities or other life-sustaining activities. These persons also include children who are handicapped or high-risk or at risk as defined in Ch. 411, F.S.

Martin Metropolitan Planning Area

1. Transit Agency Information

Transit Agency Name	Martin County Board of County Commissioners		
Transit Agency Address	2401 SE Monterey Road, Stuart, FL 34996		
Name and Title of Accountable Executive	James Gorton, Public Works Director		
Name of Chief Safety Officer or SMS Executive	Ashman Beecher, Transit Administrator		
Mode(s) of Service Covered by This Plan	Fixed Route Bus; Commuter Bus; Paratransit	List All FTA Funding Types (e.g., 5307, 5337, 5339)	5307 5339
Mode(s) of Service Provided by the Transit Agency (Directly operated or contracted service)	Fixed Route Bus; Commuter Bus; Paratransit This is a contracted service.		
Does the agency provide transit services on behalf of another transit agency or entity?	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Description of Arrangement(s) N/A
Name and Address of Transit Agency(ies) or Entity(ies) for Which Service Is Provided	N/A		

2. Plan Development, Approval, and Updates

Name of Entity That Drafted This Plan	Ashman Beecher, Transit Administrator	
Approval by the Joint Safety Committee	Date of Approval 11/15/2022	
Signature by the Accountable Executive	Signature of Accountable Executive	Date of Signature
	 James Gorton, Public Works Director	11/21/22
Approval by the Board of Directors or an Equivalent Authority	Martin County Board of County Commissioners	Date of Approval
	Approved BOCC meeting agenda item	12/06/2022

	Relevant Documentation (Title and Location)
	Copy of meeting agenda and action summary approving the Agency Safety Plan (ASP), is maintained on file by the Chief Safety Officer, in the Martin County Public Works Department.

Version Number and Updates

Record the complete history of successive versions of this plan.

Version Number	Section/Pages Affected	Reason for Change	Date Issued
1		New Document	06/02/2020
2	Page 1-16	Staff and reporting procedure changes	11/18/2022

Annual Review and Update of the Agency Safety Plan

This plan will be jointly reviewed by the Chief Safety Officer and the Transit Systems Coordinator by June 1 of each year. The Accountable Executive will review and approve any changes, signing the new ASP, it will then go to the Board of County Commissioner for approval.

3. Safety Performance Targets

Safety Performance Targets

Specify performance targets based on the safety performance measures established under the National Public Transportation Safety Plan. Safety performance targets will be evaluated over a fiscal year period with baseline year Fiscal Year 2020 (October 1, 2019 – September 30, 2020).

Mode of Transit Service	Fatalities (Total)	Fatalities (Rate per Total VRM)	Injuries (Total)	Injuries (Rate per Total VRM)	Safety Events (Total)	Safety Events (Rate Per Total VRM)	System Reliability (VRM / failures)
Fixed Route Bus	0	0	0	0	0	0	54,950
Commuter Bus	0	0	0	0	0	0	28,661
ADA Paratransit	0	0	0	0	0	0	0

Safety Performance Target Coordination		
<i>Describe the coordination with the State and Metropolitan Planning Organization(s) (MPO) in the selection of State and MPO safety performance targets.</i>		
The Chief Safety Officer shares the ASP, including safety performance targets, with the Martin Metropolitan Planning Organization (MPO) each year after its formal adoption by the Martin County Board of County Commissioners. (MCBOCC) The Chief Safety Officer also provides a copy of our formally adopted plan to the Florida Department of Transportation (FDOT). Transit personnel are available to coordinate with FDOT and the MPO in the selection of FDOT and MPO safety performance targets upon request.		
Targets Transmitted to the State	State Entity Name	Date Targets Transmitted
	Florida Department of Transportation	
Targets Transmitted to the Metropolitan Planning Organization(s)	Metropolitan Planning Organization Name	Date Targets Transmitted
	Martin Metropolitan Planning Organization	

4. Safety Management Policy

Safety Management Policy Statement
<i>including safety objectives.</i>
<p>Martin County's Public Transit service, MARTY is committed to providing safe, secure, clean, reliable, and efficient transportation services to its patrons. This policy statement serves to express management's commitment to and involvement in providing and maintaining a safe and secure transit system.</p> <p>In the interest of safety and security, MARTY has developed and adopted this Safety Management System (SMS) that complies with 49 CFR PART 673 and is dedicated to the following safety objectives:</p> <ul style="list-style-type: none"> • Communicating the purpose and benefits of the SMS to all staff, managers, supervisors, and employees. • Providing a culture of open reporting of all safety concerns, ensuring that no action will be taken against any employee who discloses a safety concern through MARTY's Employee Safety Reporting Program (ESRP), unless such disclosure indicates, beyond any reasonable doubt, an illegal act, gross negligence, or a deliberate or willful disregard of regulations or procedures. • Providing appropriate management involvement and the necessary resources that will encourage employees to communicate and report any unsafe work conditions, hazards, or at-risk behavior to management. • Identifying hazardous and unsafe work conditions and investigating any reported safety concerns by employees. • Establishing safety performance targets that are realistic, measurable, and data driven. Continually improving our safety performance through management processes that ensure appropriate safety management action is taken and is effective. <p>MARTY and its On-Road Contractor is authorized and responsible for maintaining a coordinated safety system in order to identify and prevent unsafe acts and conditions that present a potential danger or threat to public safety. Management commits to maintain and implement the ASP and comply with the policies, procedures, and standards included in this document. All MARTY and its On-Road Operator staff is charged with the responsibility of adhering to this ASP. Any violation of safety and security practices is subject to disciplinary actions. Management is ultimately responsible for enforcing the ASP and maintaining a safe and secure system.</p>

Safety Management Policy Communication

The Transit Administrator, who leads SMS activities, communicated an “SMS principles” update to transit staff in October of 2022, at a Staff meeting. MARTY’s Safety Management Policy Statement was also distributed to each employee and the On-Road Contractor. All parties receiving a copy of the statement and subsequent updates are required to sign for its receipt and acknowledge their responsibility in implementation. Distribution of the Safety Management Policy Statement has also been incorporated into the new-hire training and annual refresher training.

Authorities, Accountabilities, and Responsibilities

<p>Accountable Executive</p>	<p>The Public Works Director serves as MARTY’s Accountable Executive with the following authorities, accountabilities, and responsibilities under this plan:</p> <ul style="list-style-type: none"> • Accountable for ensuring that the agency’s SMS is effectively implemented. • Ensures action is taken, as necessary, to address substandard performance in the agency’s SMS. • Assumes ultimate responsibility for carrying out MARTY’s ASP, and SMS. • Designates an adequately trained Chief Safety Officer who is a direct report. • Controls and directs human and capital resources needed to develop and maintain the ASP and SMS. • Maintains responsibility for carrying out the agency’s Transit Asset Management Plan.
<p>Chief Safety Officer or SMS Executive</p>	<p>The Accountable Executive designates the Transit Administrator as MARTY’s Chief Safety Officer. The Chief Safety Officer has the following authorities, accountabilities, and responsibilities under this plan:</p> <ul style="list-style-type: none"> • Holds a direct line of reporting to the Accountable Executive. • Has the authority and responsibility for day-to-day implementation and operation of the agency’s SMS. • Manages Marty’s ESRP • Develops Marty’s ASP and SMS policies and procedures. • Advises the Accountable Executive on SMS progress and status.
<p>Agency Leadership and Executive Management</p>	<p>The Transit Systems Coordinator has been identified to have the following authorities and responsibilities for day-to-day SMS implementation and operation of the SMS under this plan.:</p> <ul style="list-style-type: none"> • Complete training on SMS and ASP elements • Oversee day-to-day operations of the SMS • Modify policies consistent with implementation of the SMS, as necessary.
<p>Key Staff</p>	<p>The Contracted On-Road Operations and Safety Manager is responsible for Drivers’ training.</p> <ul style="list-style-type: none"> • Drivers’ Meetings: A permanent agenda item in all monthly Drivers’ Meetings is dedicated to safety. Safety issues are discussed and documented. • Safety Event Investigations • Re-Training

Joint Safety Committee	In conformance with the Bipartisan Infrastructure Law 49 U.S.C § 5329(d)(5) a joint safety committee has been established and will meet monthly, and annually approve the updated (ASP).
-------------------------------	--

Employee Safety Reporting Program

Martin County’s Employee Safety Reporting Program (ESRP) encourages employees or contract employees to report safety conditions to senior management. Employees may report safety concerns in good faith without fear of retribution in the following ways:

- Report conditions directly to Chief Safety Officer, or Transit Systems Coordinator
- Report conditions anonymously via a locked comment box in the County fuel/bus parking lot.
- Comments via a sealed envelope can be dropped off at the County Administration Office at the security desk. Must have the words “For MARTY Chief Safety Officer” on the front of the envelope to ensure proper delivery.
- Report conditions at the monthly staff/contractor or driver safety meetings
- Report conditions electronically in Workday

The comment box is checked daily with any safety comments given directly to the Chief Safety Officer. Any safety conditions identified will be logged into a Safety Risk Register and reviewed by the Chief Safety Officer and addressed through the Safety Risk Management (SRM) process.

Marty encourages participation in the ESRP by protecting employees that report safety conditions in good faith. However, disciplinary action may be required if the report involves any of the following:

- Willful participation in illegal activity, such as assault or theft.
- Gross negligence, such as knowingly utilizing heavy equipment for purposes other than intended such that people or property are put at risk; or
- Deliberate or willful disregard of regulations or procedures, such as reporting to work under the influence of controlled substances.

5. Safety Risk Management

Safety Risk Management Process

Describe the Safety Risk Management process, including:

- *Safety Hazard Identification: The methods or processes to identify hazards and consequences of the hazards.*
- *Safety Risk Assessment: The methods or processes to assess the safety risks associated with identified safety hazards.*
- *Safety Risk Mitigation: The methods or processes to identify mitigations or strategies necessary as a result of safety risk assessment.*

MARTY uses the SRM process as a primary method to ensure the safety of our operations, passengers, employees, vehicles, facilities. It is a process whereby hazards and their consequences are identified, assessed for potential safety risk, and resolved in a manner acceptable to leadership. The SRM process allows us to carefully examine what could cause harm and determine whether we have taken sufficient precautions to minimize the harm, or if further mitigations are necessary.

Safety Hazard Identification

The safety hazard identification process offers MARTY the ability to identify hazards and potential consequences in the operation and maintenance of our system. Hazards can be identified through a variety of sources, including:

- ESRP.
- Review of vehicle camera footage.
- Review of monthly performance data and safety performance targets.
- Observations by Transit staff.
- Maintenance reports;
- Comments from passengers
- Daily Vehicle Inspection forms
- Annual Bus Safety Inspections report
- Investigations into safety events, incidents, and occurrences.
- Federal Transit Administration (FTA) and other oversight authorities.

When a safety concern is identified, whatever the source, it is reported to the Chief Safety Officer. Procedures for reporting hazards to the Chief Safety Officer are reviewed during Staff Meetings.

Any identified hazard that poses a real and immediate threat to life, property, or the environment must immediately be brought to the attention of the Accountable Executive and addressed. This means that the Chief Safety Officer believes immediate intervention is necessary to preserve life, prevent major property destruction, or avoid harm to the environment that would constitute a violation of Environmental Protection Agency or Florida State environmental protection standards.

Safety Risk Assessment

The Chief Safety Officer prioritizes safety hazards using MARTY's Safety Risk Matrix. This matrix expresses assessed risk as a combination of one severity category and one likelihood level, also referred to as a hazard rating. For example, a risk may be assessed as "1A" or the combination of a Catastrophic (1) severity category and a Frequent (A) probability level.

This matrix also categorizes combined risks into levels, High, Medium, or Low, based on the likelihood of occurrence and severity of the outcome. For purposes of accepting risk:

- "High" hazard ratings will be considered unacceptable and require action to mitigate the safety risk.
- "Medium" hazard ratings will be considered undesirable and require the Chief Safety Officer to make a decision regarding their acceptability, and
- "Low" hazard ratings may be accepted by the Chief Safety Officer without additional review.

Safety Risk Matrix		1	2	3	4
		Catastrophic	Critical	Marginal	Negligible
A	Frequent	High	High	High	Low
B	Probable	High	High	Medium	Low
C	Occasional	High	Medium	Medium	Low
D	Remote	Medium	Medium	Low	Low
E	Improbable	Low	Low	Low	Low

Using a categorization of High, Medium, or Low allows for hazards to be prioritized for mitigation based on their associated safety risk

Once the Chief Safety Officer has assessed the safety risk, they will document the safety risk assessment, including the hazard rating and mitigation options for each identified safety hazard. The Chief Safety Officer will maintain a file for each identified safety risk for a period of three years from the date of generation.

Safety Risk Mitigation

The Chief Safety Officer will review current methods of safety risk mitigation and establish methods or procedures to mitigate or eliminate safety risk associated with specific hazards. MCPT can reduce safety risk by reducing the likelihood and/or severity of potential consequences of hazards.

Prioritization of safety risk mitigations is based on the results of the safety risk assessments. The Chief Safety Officer tracks and updates safety risk mitigation information in the identified safety risk file.

The Chief Safety Officer will also document any specific measures or activities, such as review, observation, or audits that will be conducted to monitor the effectiveness of mitigation once implemented in a Safety Risk Register.

6. Safety Assurance

Through our Safety Assurance process, MARTY:

- Evaluates our compliance with operations and maintenance procedures to determine whether our existing rules and procedures are sufficient to control our safety risk;
- Assesses the effectiveness of safety risk mitigations to make sure the mitigations are appropriate and are implemented as intended.
- Investigates safety events to identify causal factors; and
- Analyzes information from safety reporting, including data about safety failures, defects, or conditions.

Safety Performance Monitoring and Measurement

Describe activities to monitor the system for compliance with procedures for operations and maintenance.

MARTY has many processes in place to monitor its entire transit system for compliance with operations and maintenance procedures, including:

- Internal Safety audits
- Compliance with System Safety Program Plan
- Random inspections for safety compliance
- Facility inspections
- Daily Safety/Security data acquisition and analysis
- Daily Vehicle Inspections
- Regular review of onboard camera footage to assess drivers and specific incidents,
- Annual safety inspections
- Investigations of safety complaints
- Event investigations
- External safety audits
- Regular vehicle inspections and preventative maintenance.

Results from the above processes are compared against recent performance trends quarterly and annually by the Chief Safety Officer to determine where action needs to be taken. The Chief Safety Officer enters any identified non-compliant or ineffective activities, including mitigations, and puts them back through the Safety Risk Management Process.

Describe activities to monitor operations to identify any safety risk mitigations that may be ineffective, inappropriate, or were not implemented as intended.

MARTY monitors safety risk mitigations to determine if they have been implemented and are effective, appropriate, and working as intended. The Chief Safety Officer maintains a list of safety risk mitigations in the Safety Risk Register. The mechanism for monitoring safety risk mitigations varies depending on the mitigation.

The Chief Safety Officer establishes one or more mechanisms for monitoring safety risk mitigations as part of the mitigation implementation process and assigns monitoring activities to the appropriate staff. These monitoring mechanisms may include tracking a specific metric on daily, weekly, or monthly logs or reports; conducting job performance observations; or other activities. The Chief Safety Officer will endeavor to make use of existing MARTY processes and activities before assigning new information collections activities.

MARTY Chief Safety Officer will review the performance of individual risk mitigations based on the reporting schedule determined for each mitigation and determine if a specific safety risk mitigation is not implemented or performing as intended. If the mitigation is not implemented or performing as intended, the Chief Safety Officer will modify the mitigation or take other action to manage the safety risk.

Describe activities to conduct investigations of safety events, including the identification of causal factors.

MARTY conducts safety investigations of events (accidents, incidents, and occurrences, as defined by FTA) to find causal and contributing factors and review the existing mitigations in place at the time of the event.

In the case of any of these events, drivers are required to contact dispatch immediately. Dispatch calls 911 should emergency services be needed. The Operations & Safety Manager will be immediately notified and will be sent to the scene. Each investigation will be documented in a final report that includes a description of the investigation's activities, identified causal factors and any identified corrective action plan. For Specific procedures for conducting safety investigations see Transit's Contractor Corporate Policy Statement for Injury Investigation and Accident/Incident Reporting.

The Final Report and all documentation of the investigation, will be given to the Chief Safety Officer, for determination whether:

- The accident was preventable or non-preventable.
- Personnel require discipline or retraining.
- The causal factor(s) indicate(s) that a safety hazard contributed to or was present during the event; and
- The accident appears to involve underlying organizational causal factors beyond just individual employee behavior.

All records will be maintained by the Chief Safety Officer for a minimum of five years from the date of completion of the investigation.

Describe activities to monitor information reported through internal safety reporting programs.

The Chief Safety Officer will routinely review safety data captured in the ERSP, the monthly safety performance data, customer complaints and other safety communication channels. Any safety conditions identified will be logged into a Safety Risk Register and addressed through the Safety Risk Management (SRM) process.

7. Safety Promotion

Competencies and Training

Describe the safety training program for all agency employees and contractors directly responsible for safety.

MARTY 's comprehensive safety training program applies to all agency employees and contractors directly responsible for safety in the agency's public transportation system including:

- Bus vehicle operators
- Dispatchers
- Maintenance technicians
- Manager and supervisors
- Agency Leadership and Executive Management
- Chief Safety Officer
- Accountable Executive

The scope of the safety training, including annual refresher training, is appropriate to each employee's individual safety-related job responsibilities and their role in the MARTY SMS.

Safety training is conducted by the Operations and Safety Manager, Training Coordinator, and Chief Safety Officer.

Basic training requirements, including frequencies and refresher training are documented in

- Marty Non-Driver Safety Training and Procedures Manual
- Driver Safety Training is detailed in the SSPP, Section 7.
- Contractor Safety Management system (SMS) Plan
- Maintenance Technicians Safety Training is outlined in the Marty-Vehicle Maintenance Plan, Pg 9, Training Section.
- Martin County Safety Manual, County personnel safety training is conducted using a software system called NEO GOV there are a minimum of 6 online courses that are required annually, these would include the Accountable Executive and Executive Management.

Operations safety-related skill training includes the following:

- New-hire bus vehicle operator classroom and hands-on skill training,
- Bus vehicle operator refresher training,
- Bus vehicle operator retraining (recertification or return to work),
- Classroom and on-the-job training for dispatchers,
- Classroom and on-the-job training for operations supervisors and managers, and
- Accident investigation training for operations supervisors and managers.

Vehicle maintenance safety-related skill training includes the following:

- Ongoing vehicle maintenance technician skill training,
- Ongoing skill training for vehicle maintenance supervisors,
- Accident investigation training for vehicle maintenance supervisors,
- Ongoing hazardous material training for vehicle maintenance technicians and supervisors, and
- Training provided by vendors.

Marty's Accountable Executive, Chief Safety Officer or SMS Executive, Agency Leadership and Executive Management may take online FTA safety classes through the FTA-sponsored USDOT Transportation Safety Institute (TSI).

Safety Communication

Describe processes and activities to communicate safety and safety performance information throughout the organization.

The Chief Safety Officer and the Operations & Safety Manager coordinate MARTY's safety communication activities for the SMS.

Safety and safety performance information is communicated to the contractor and County staff during the monthly Staff/Contractor meetings and to the Drivers at the monthly Drivers' Safety Meeting. Information typically conveyed during these meetings includes safety performance statistics, lessons learned from recent occurrences, upcoming events that may impact safety, and information on hazards and safety risks relevant to employees' roles and responsibilities.

During these meetings the employees are informed of any action taken in response to reports submitted through the ESRP and gives staff and driver's an opportunity to report any new safety conditions.

Additional Information

Supporting Documentation

Include or reference documentation used to implement and carry out the ASP that are not included elsewhere in this Plan.

MARTY will maintain documentation related to the implementation of its SMS; the programs, policies, and procedures used to carry out this ASP; and the results from its SMS processes and activities for a minimum of three years after creation. They will be available to the FTA or other Federal or oversight entity upon request.

Documents used to develop the ASP:

- Marty SSPP
- Contractor SMS Plan
- Marty SMS plan
- Marty Vehicle Maintenance Plan
- Non-Driver Safety Training and Procedures Manual

Definitions of Special Terms Used in the ASP

MARTY incorporates all of FTA's definitions that are in §673.5 of the Public Transportation Agency Safety Plan regulation.

- **Accident** means an Event that involves any of the following: A loss of life; a report of a serious injury to a person; a collision of public transportation vehicles; a runaway train; an evacuation for life safety reasons; or any derailment of a rail transit vehicle, at any location, at any time, whatever the cause.
- **Accountable Executive** means a single, identifiable person who has ultimate responsibility for carrying out the Public Transportation Agency Safety Plan of a public transportation agency; responsibility for carrying out the agency's Transit Asset Management Plan; and control or direction over the human and capital resources needed to develop and maintain both the agency's Public Transportation Agency Safety Plan, in accordance with 49 U.S.C. 5329(d), and the agency's Transit Asset Management Plan in accordance with 49 U.S.C. 5326.
- **Chief Safety Officer** means an adequately trained individual who has responsibility for safety and reports directly to a transit agency's chief executive officer, general manager, president, or equivalent officer. A Chief Safety Officer may not serve in other operational or maintenance capacities, unless the Chief Safety Officer is employed by a transit agency that is a small public transportation provider as defined in this part, or a public transportation provider that does not operate a rail fixed guideway public transportation system.
- **Equivalent Authority** means an entity that carries out duties similar to that of a Board of Directors, for a recipient or subrecipient of FTA funds under 49 U.S.C. Chapter 53, including sufficient authority to review and approve a recipient or subrecipient's Public Transportation Agency Safety Plan.
- **Event** means any Accident, Incident, or Occurrence.
- **FTA** means the Federal Transit Administration, an operating administration within the United States Department of Transportation.
- **Hazard** means any real or potential condition that can cause injury, illness, or death; damage to or loss of the facilities, equipment, rolling stock, or infrastructure of a public transportation system; or damage to the environment.
- **Incident** means an event that involves any of the following: A personal injury that is not a serious injury; one or more injuries requiring medical transport; or damage to facilities, equipment, rolling stock, or infrastructure that disrupts the operations of a transit agency.
- **Investigation** means the process of determining the causal and contributing factors of an accident, incident, or hazard, for the purpose of preventing recurrence and mitigating risk.
- **National Public Transportation Safety Plan** means the plan to improve the safety of all public transportation systems that receive Federal financial assistance under 49 U.S.C. Chapter 53.
- **Occurrence** means an Event without any personal injury in which any damage to facilities, equipment, rolling stock, or infrastructure does not disrupt the operations of a transit agency.
- **Operator of a public transportation system** means a provider of public transportation as defined under 49 U.S.C. 5302(14).
- **Performance measure** means an expression based on a quantifiable indicator of performance or condition that is used to establish targets and to assess progress toward meeting the established targets.
- **Performance target** means a quantifiable level of performance or condition, expressed as a value for the measure, to be achieved within a time period required by the Federal Transit Administration (FTA).
- **Public Transportation Agency Safety Plan** means the documented comprehensive agency safety plan for a transit agency that is required by 49 U.S.C. 5329 and this part.
- **Rail fixed guideway public transportation system** means any fixed guideway system that uses rail, is operated for public transportation, is within the jurisdiction of a State, and is not subject to the jurisdiction of the Federal Railroad Administration, or any such system in engineering or construction. Rail fixed guideway public transportation systems include but are not limited to rapid rail, heavy rail, light rail, monorail, trolley, inclined plane, funicular, and automated guideway.
- **Rail transit agency** means any entity that provides services on a rail fixed guideway public transportation system.
- **Risk** means the composite of predicted severity and likelihood of the potential effect of a hazard.
- **Risk mitigation** means a method or methods to eliminate or reduce the effects of hazards.
- **Safety Assurance** means processes within a transit agency's Safety Management System that functions to ensure the implementation and effectiveness of safety risk mitigation, and to ensure that the transit agency meets or exceeds its safety objectives through the collection, analysis, and assessment of information.
- **Safety Management Policy** means a transit agency's documented commitment to safety, which defines the transit agency's safety objectives and the accountabilities and responsibilities of its employees in regard to safety.

- **Safety Management System (SMS)** means the formal, top-down, organization-wide approach to managing safety risk and assuring the effectiveness of a transit agency's safety risk mitigation. SMS includes systematic procedures, practices, and policies for managing risks and hazards.
- **Safety Management System (SMS) Executive** means a Chief Safety Officer or an equivalent.
- **Safety performance target** means a Performance Target related to safety management activities.
- **Safety Promotion** means a combination of training and communication of safety information to support SMS as applied to the transit agency's public transportation system.
- **Safety risk assessment** means the formal activity whereby a transit agency determines Safety Risk Management priorities by establishing the significance or value of its safety risks.
- **Safety Risk Management** means a process within a transit agency's Public Transportation Agency Safety Plan for identifying hazards and analyzing, assessing, and mitigating safety risk.
- **Serious injury** means any injury which:
 - Requires hospitalization for more than 48 hours, commencing within 7 days from the date of the injury was received.
 - Results in a fracture of any bone (except simple fractures of fingers, toes, or noses);
 - Causes severe hemorrhages, nerve, muscle, or tendon damage.
 - Involves any internal organ; or
 - Involves second- or third-degree burns, or any burns affecting more than 5 percent of the body surface.
- **Small public transportation provider** means a recipient or subrecipient of Federal financial assistance under 49 U.S.C. 5307 that has one hundred (100) or fewer vehicles in peak revenue service and does not operate a rail fixed guideway public transportation system.
- **State** means a State of the United States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, Guam, American Samoa, and the Virgin Islands.
- **State of good repair** means the condition in which a capital asset is able to operate at a full level of performance.
- **State Safety Oversight Agency** means an agency established by a State that meets the requirements and performs the functions specified by 49 U.S.C. 5329(e) and the regulations set forth in 49 CFR part 674.
- **Transit agency** means an operator of a public transportation system.
- **Transit Asset Management Plan** means the strategic and systematic practice of procuring, operating, inspecting, maintaining, rehabilitating, and replacing transit capital assets to manage their performance, risks, and costs over their life cycles, for the purpose of providing safe, cost-effective, and reliable public transportation, as required by 49 U.S.C. 5326 and 49 CFR part 625.

List of Acronyms Used in the ASP

Acronym	Word or Phrase
ADA	Americans with Disabilities Act of 1990
ASP	Agency Safety Plan (also referred to as PTASP in Part 673)
CFR	Code of Federal Regulations
ESRP	Employee Safety Reporting Program
FDOT	Florida Department of Transportation
FTA	Federal Transit Administration
MCBOCC	Martin County Board of County Commissioners
MCPT	Martin County Public Transit (aka MARTY)
MPO	Metropolitan Planning Organization
Part 673	49 CFR Part 673 (public Transportation Agency Safety Plan)
SMS	Safety Management System
SPT	Safety Performance Targets
SRM	Safety Risk Management Process
SSPP	System Safety Program Plan
TSI	Transportation Safety Institute
U.S.C.	United States Code
VRM	Vehicle Revenue Miles

TECHNICAL ADVISORY COMMITTEE (TAC) MEETING
AGENDA ITEM SUMMARY

MEETING DATE: May 1, 2023	DUE DATE: April 24, 2023	UPWP#: 5
WORDING: STRATEGIC INTERMODAL SYSTEM (SIS) COST FEASIBLE PLAN UPDATE		
REQUESTED BY: MPO	PREPARED BY: Ricardo Vazquez / Beth Beltran	DOCUMENT(S) REQUIRING ACTION: N/A

BACKGROUND

The Strategic Intermodal System (SIS) is Florida’s high priority network of transportation facilities important to moving people and freight, linking Florida’s regions, and investing in strategic transportation facilities. FDOT is updating the SIS Policy Plan, which sets the policy direction for designating, planning, and implementing the SIS. It is developed in consultation with statewide, regional, and local partners. During this presentation, FDOT will discuss the process for updating the SIS Cost Feasible Plan.

ISSUES

FDOT staff will present the update to the SIS Cost Feasible Plan and seek input from the MPO committee members.

RECOMMENDED ACTION

Provide Comments

STRATEGIC INTERMODAL SYSTEM COST FEASIBLE PLAN (Highway Mode) UPDATE

Florida Department of Transportation

April/May 2023

1

AGENDA

- Background and Purpose
- SIS Project Programming
- Previous Coordination
- Draft Cost Feasible Plan
- Schedule
- Safety Message and Questions

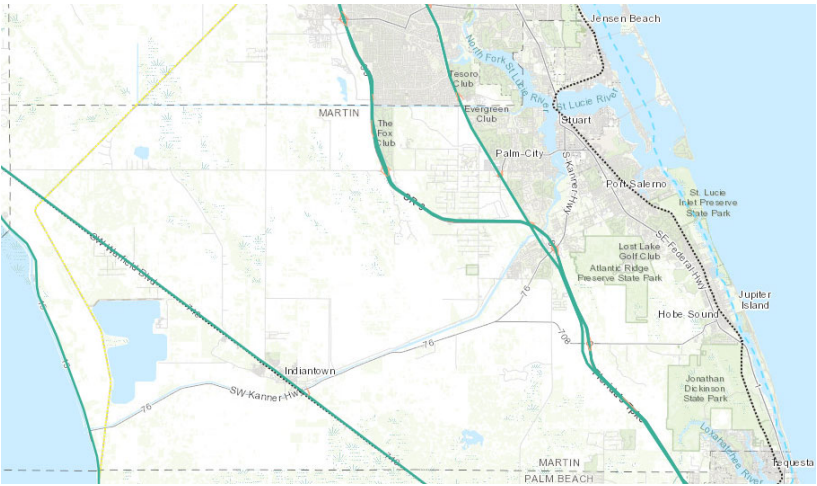

2

BACKGROUND AND PURPOSE

- The Strategic Intermodal System (SIS)
 - Focuses resources on transportation facilities and services that support critical interregional, interstate, and international trips
 - High priority network of transportation facilities important to the state's economy and mobility

- 2050 Cost Feasible Plan (Highway Mode)
 - Ensures consistency with the goals of the Florida Transportation Plan (FTP) and the objectives of the SIS Policy Plan
 - Evaluate SIS highway capacity needs based on future revenues
 - Develops a phased plan for cost feasible improvements to SIS highways
 - Does not include other SIS Modes (Freight and Passenger Rail, Airports, Seaports, Spaceports, and Urban Fixed Guideways)

3

SIS PROJECT PROGRAMMING

SIS Funding Strategy

- 1st Five Year Work Program
 - Funded (year 1)
 - Programmed for funding (years 2-5)

- 2nd Five Year Plan
 - Planned for funding (years 6-10)

- **Cost Feasible Plan**
 - **Considered financially feasible (years 11-25)**

- Multi-Modal Unfunded Needs Plan (MMUNP)
 - Transportation projects that meet mobility needs, but where funding is not expected to be available during the 25-year time period of the SIS Funding Strategy.

Long-Range Planning

[SIS OVERVIEW](#)

4

PREVIOUS COORDINATION

- Joint Virtual Workshop
 - Held on August 5th, 2022
 - Agenda Included:
 - Intent of the SIS CFP
 - Tentative Schedule
 - Input from Partners Regarding:
 - FDOT Proposed Projects
 - Recommendations for Additional Projects

5

DRAFT COST FEASIBLE PLAN (MARTIN COUNTY)

ID	FACILITY	FROM	TO	Design			Right of Way and Construction			Improvement TYPE
				PDE	PE	TOTAL	ROW	CON	TOTAL

LEGEND

- FY 2032/2033 - 2034/2035
- FY 2035/2036 - 2039/2040
- FY 2040/2041 - 2044/2045
- FY 2045/2046 - 2049/2050
- Requested, But Not Feasible

NOTES

- (1) All values in thousands of Present Day Dollars (2023).
- (2) All phase costs shown as supplied by each District.
- (3) CON includes both Construction (CON52) and Construction Support (CEI).
- (4) ROW includes both Right-of-Way Acquisition/Mitigation (ROW43/45) and Right-of-Way Support.
- (5) Revenue forecast provides separate values for PDE and PE than for ROW and CON.
- (6) This is a DRAFT and revisions will be made based on further coordination.

**MARTIN METROPOLITAN PLANNING ORGANIZATION
TECHNICAL ADVISORY COMMITTEE (TAC) MEETING
AGENDA ITEM SUMMARY**

MEETING DATE: May 1, 2023	DUE DATE: April 24, 2023	UPWP#: 5
WORDING: FLORIDA DEPARTMENT OF TRANSPORTATION (FDOT) MPO SCHEDULING REPORT		
REQUESTED BY: MPO	PREPARED BY: Joy Puerta / Beth Beltran	DOCUMENT(S) REQUIRING ACTION: N/A

BACKGROUND

The FDOT MPO Scheduling Report provides a summary of projects and their project schedule, ensuring that stakeholders are aware of the status of projects and provide appropriate input during the scheduled activity. In addition, the various scheduled activities can provide the MPO guidance and understanding through the design phase.

During the Multimodal Scoping Checklist (MMS) scheduled activity, each agency is notified to enter comments about the project scope, which can include confirmation or discussion on context class, and minor comments about multimodal features such as bus stop additions/relocations/removal, missing sidewalk gaps, and addition of turn lanes. The MMS scheduled activity is the most appropriate time to provide comments on FDOT Work Program Projects.

ISSUES

At the May Advisory Committee Meetings, MPO staff will discuss two projects on the FDOT MPO Scheduling Report. The first project, FM #449829-1 (SR-714/SE Monterey Road from SW Palm City Road to 400 ft south of SR-5/US-1) which includes a resurfacing project. The MPO’s Complete Streets: Access to Transit Study includes a typical section for this area and is supported by staff.

The second project, FM# 448447-1 (SR-5/US-1 from .5 Mile south of SR-A1A/SE Dixie Hwy to south of SE Heritage Blvd) includes a resurfacing project. During the previous MMS process, MPO staff requested a shared used pathway and buffered bike lanes along the corridor. However, this project plans to remove the existing bicycle lanes that will eliminate the continuity of buffered bicycle lanes to the north and existing bicycle lanes/paved shoulders to the south and is not supported by staff.
